<tr>
<td>Leading SAFe (SA)- Public/Open Enrollment</td>
<td>The Scaled Agile Framework (or SAFe) is a guide to aligning Agile development throughout an organization. Most organizations focus their Agile development efforts at the team level, first starting with a pilot team and later transitioning individual teams one at a time. Unfortunately, this method fails to fully integrate each team’s efforts with the larger stakeholder need. The Scaled Agile Framework gives you proven techniques to align these teams to work at the larger program level, and ultimately how to align multiple programs into a portfolio that maximizes shareholder value. This two-day SAFe Agilist certification course will show you how to successfully scale Agile principals across your organization by utilizing Lean thinking practices and Product Development Flow techniques. Includes Exam Fee for 1 attempt towards the SAFe® Agilist Certification and 1 Year certified Membership as a SAFe® Agilist. Delivery Method: In-person or Live Online. Prerequisite: None.</td>
