LABOR CATEGORY DESCRIPTIONS

• Application Developer
  o Bachelor’s Degree
  o Minimum 4 Years Experience
  o Translates software requirements into workable programming code. Reviews, analyzes, and modifies programming systems including encoding, testing, debugging and documenting programs. Specializes in application development. Requires 4+ years of experience in the field or in a related area with a Bachelor’s Degree. Familiar with a variety of the field’s concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. May report directly to a project lead or manager. A wide degree of creativity and latitude is expected. Creates user interface with the application software. Writes and implements supporting applications using programming languages and development tools.

• Associate Consultant
  o Bachelor’s Degree
  o Minimum 7 Years Experience
  o Works with end user groups to identify technical solutions to business problems or inefficiencies. Evaluates existing systems and/or user needs and makes recommendations. May require certification in specific applications. Requires a bachelor’s degree and at least 7 years of experience in the field or in a related area. Familiar with a variety of the field’s concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a head of a unit/department.

• Business Analyst II
  o Bachelor’s Degree
  o Minimum 2 Years Experience
  o Reviews, analyzes, and evaluates business systems and user needs. Documents requirements, defines scope and objectives, and formulates systems to parallel overall business strategies. Requires a Bachelor’s degree in related area and 2 years of experience in the field or in a related area. Familiar with relational database concepts, and client-server concepts. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a manager.

• Business Analyst III
  o Bachelor’s Degree
  o Minimum 4 Years Experience
  o Reviews, analyzes, and evaluates business systems and user needs. Documents requirements, defines scope and objectives, and formulates systems to parallel overall business strategies. Requires a bachelor’s degree in a related area and 4 years of experience in the field or in a related area. Familiar with relational database concepts, and client-server concepts. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager.
**Business Transformation Consultant 1**
- Master’s Degree
- Minimum 7 Years Experience
- Leads the standardization of business processes and data. Ensures integration across various regions and departments. Manages the planning, release cycles, and functional dependencies of an organization. Enables organization to achieve greater flexibility and attain competitive advantages by leveraging its human capital.
