**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF GENERAL PURPOSE
COMMERCIAL INFORMATION TECHNOLOGY NEW EQUIPMENT(SPECIAL
ITEM NUMBER 132-8)**

1. MATERIAL AND WORKMANSHIP

All equipment furnished hereunder must satisfactorily perform the function for which it is intended.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the Contractor will be obligated to meet the delivery and installation date specified in the original order.

For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT

FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

a. **INSTALLATION.** When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the ordering activity, at the ordering activity's location, to install the equipment and to train ordering activity personnel in the use and maintenance of the equipment. The charges, if any, for such services are listed below, or in the price schedule: Equipment is self-installable.

b. **INSTALLATION, DEINSTALLATION, REINSTALLATION.** The Davis-Bacon Act (40 U.S.C.

276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District

of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or SIN 132-9.

c. **OPERATING AND MAINTENANCE MANUALS.** The Contractor shall furnish the ordering activity with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any equipment that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming equipment at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. **Limitation of Liability.** Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: 100 Wall St., Floor 15, New York, NY 10005

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

8. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT

When an ordering activity determines that Information Technology equipment will be replaced, the ordering activity shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).

TERMS AND CONDITIONS APPLICABLE TO MAINTENANCE, REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS FOR GOVERNMENT-OWNED GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT, RADIO/TELEPHONE EQUIPMENT, (AFTER EXPIRATION OF GUARANTEE/WARRANTY PROVISIONS AND/OR WHEN REQUIRED SERVICE IS NOT COVERED BY GUARANTEE/WARRANTY PROVISIONS) AND FOR LEASED EQUIPMENT (SPECIAL ITEM NUMBER 132-12)

1. SERVICE AREAS

- a. The maintenance rates listed herein are applicable to any ordering activity location within an as negotiated mile radius of the Contractor's service points. If any additional charge is to apply because of the greater distance from the Contractor's service locations, the mileage rate or other distance factor shall be negotiated at the Task Order level.

2. MAINTENANCE ORDER

- a. Agencies may use written orders, EDI orders, credit card orders, or BPAs, for ordering maintenance under this contract. The Contractor shall confirm orders within fifteen (15) calendar days from the date of receipt, except that confirmation of orders shall be considered automatic for renewals for maintenance (Special Item Number 132-12). Automatic acceptance of order renewals for maintenance service shall apply for machines which may have been discontinued from use for temporary periods of time not longer than 120 calendar days. If the order is not confirmed by the Contractor as prescribed by this paragraph, the order shall be considered to be confirmed by the Contractor.
- b. The Contractor shall honor orders for maintenance for the duration of the contract period or a lesser period of time, for the equipment shown in the pricelist. Maintenance service shall commence on a mutually agreed upon date, which will be written into the maintenance order. Maintenance orders shall not be made effective before the expiration of any applicable maintenance and parts guarantee/warranty period associated with the purchase of equipment. Orders for maintenance service shall not extend beyond the end of the contract period.
- c. Maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice, or shorter notice when agreed to by the Contractor; such notice to become effective thirty (30) calendar days from the date on the notification. However, the ordering activity may extend the original discontinuance date upon written notice to the Contractor, provided that such notice is furnished at least ten (10) calendar days prior to the original discontinuance date.
- d. Annual Funding. When annually appropriated funds are cited on a maintenance order, the period of maintenance shall automatically expire on September 30th of the contract period, or at the end of the contract period, whichever occurs first. Renewal of a maintenance order citing the new appropriation shall be required, if maintenance is to continue during any remainder of the contract period.
- e. Cross-year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month, fiscal year period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- f. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of maintenance service, if maintenance is to be terminated at that time. Orders for continued maintenance will be required if maintenance is to be continued during the subsequent period.

3. LOSS OR DAMAGE

When the Contractor removes equipment to his establishment for repairs, the Contractor shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

4. SCOPE

- a. The Contractor shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term.
- b. Equipment placed under maintenance service shall be in good operating condition.
 - (1) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by the Contractor, without charge to the ordering activity.
 - (2) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by the Contractor, if the equipment was under the Contractor's guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.
 - (3) If the equipment was not under the Contractor's responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of Special Item Number 132-12 (or outside the scope of this contract).

5. RESPONSIBILITIES OF THE ORDERING ACTIVITY

- a. Ordering activity personnel shall not perform maintenance or attempt repairs to equipment while such equipment is under the purview of a maintenance order, unless agreed to by the Contractor.
- b. Subject to security regulations, the ordering activity shall permit access to the equipment which is to be maintained or repaired.
- c. If the Ordering Activity desires a factory authorized/certified service personnel then this should be clearly stated in the task or delivery order.

6. RESPONSIBILITIES OF THE CONTRACTOR

- a. If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then the Contractor is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Agency and the Contractor.

7. MAINTENANCE RATE PROVISIONS

- a. The Contractor shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the ordering activity.
- b. **REGULAR HOURS**

The basic monthly rate for each make and model of equipment shall entitle the ordering activity to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the ordering activity location.
- c. **AFTER HOURS**

Should the ordering activity require that maintenance be performed outside of Regular Hours, charges for such maintenance, if any, will be specified in the pricelist. Periods of less than one hour will be prorated to the nearest quarter hour.

8. INVOICES AND PAYMENTS

a. Maintenance Service

(1) Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

(2) Payment for maintenance service of less than one month's duration shall be prorated at 1/30th of the monthly rate for each calendar day.

TERMS AND CONDITIONS APPLICABLE TO TERM SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-32), PERPETUAL SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-33) AND MAINTENANCE AS A SERVICE (SPECIAL ITEM NUMBER 132-34) OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY SOFTWARE

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. ENTERPRISE USER LICENSE AGREEMENTS REQUIREMENTS (EULA)

The Contractor shall provide all Enterprise User License Agreements in an editable Microsoft Office (Word) format.

3. GUARANTEE/WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract. If no implied warranties are given, an express warranty of at least 60 days must be given in accordance with FAR 12.404(b)(2)

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

4. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number (212) 269-6707 for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available from to for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is 24/7.

5. SOFTWARE MAINTENANCE

a. Software maintenance as it is defined: (select software maintenance type) :

X 1. Software Maintenance as a Product (SIN 132-32 or SIN 132-33)

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service.

Software Maintenance as a product is billed at the time of purchase.

X 2. Software Maintenance as a Service (SIN 132-34)

Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person communications regardless of the medium used to communicate: telephone support, on- line technical support, customized support, and/or technical expertise which are charged commercially. Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

Software maintenance as a service is billed in arrears in accordance with 31 U.S.C. 3324.

b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

6. PERIODS OF MAINTENANCE (SIN 132-34)

- a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.
- b. Annual Funding. When annually appropriated funds are cited on an order for maintenance, the period of the and/or maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of the maintenance orders citing the new appropriation shall be required, if maintenance is to be continued during any remainder of the contract period.
- c. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- d. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the maintenance is to be terminated at that time. Orders for the maintenance will be required if the maintenance is to be continued during the subsequent period.

9. UTILIZATION LIMITATIONS - (SIN 132-33, AND SIN 132-34)

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:
 - (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
 - (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.

(3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.

(4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

10. SOFTWARE CONVERSIONS - (SIN 132-33)

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another. Under a perpetual license (132-33), the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version. Under a term license (132-32), conversion credits which accrued while the earlier version was under a term license shall carry forward and remain available as conversion credits which may be applied towards the perpetual license price of the new version.

11. DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

12. RIGHT-TO-COPY PRICING

The Contractor shall insert the discounted pricing for right-to-copy licenses.

TRAINING COURSE DESCRIPTION AND PRICING

Course Title: Dalet System Administrator Training

Course description: This training covers the required knowledge to be able to administrate the Dalet System.

-System health monitoring, System maintenance checking, report an issue to Dalet support through Dalet Support CRM, be able to troubleshoot issues along with Dalet Support engineer, be able to collect relevant application logs to send to Dalet Support (do regular administration tasks on the system (user management, right management, workflow updates, media management...)).

Course Length: Variable from 1 day to 5 days.

Minimum Participant: 1

Maximum Participant: 6

GSA Price: \$1,481,11 per day

Course Title: Dalet Super User and User Training

Course description: This training covers the required knowledge to be able to use the Dalet System as well as to provide some coaching to end users.:

-Overview of the Dalet System (Browser, applications, workflow), creation of user account, management of users/groups: rights management on categories, Dalet tabs, rights management and access rights to Dalet modules, configuration of category displayed fields for the base browser and search results, management of the filters and mini-filters, creation of user profiles, creation of workspaces, management of the users profiles, shortcuts, workspaces, disables menu, chat and notifications over the titles, management of the locking function of the titles, news editor profile, story templates user rights, Ingest Timeline, Timeline Ingest module management : scheduled and manual ingests, rights management over the Ingest Timeline Manager, Recording Patterns, follow the progress of ingested files and the ongoing recording jobs, video file control, purge and check the media file for a video title type
-Import from P2 /XDCAM, ClipBin, rush, simple edit, Video Editing modules (Trimmer, Timeline and Media Logger and the default preferences Video editing: advanced options and audio mix and Locators and the rights), management of the asset manager forms and their rights, status management and their rights, statuses in the workflow, management of story templates, story templates user rights, access to Dalet from Webspaces, and WebSpace Admin.

Course Length: Variable from 2 days to 5 days.

Minimum Participant: 1

Maximum Participant: 8

GSA Price: \$1,481.11 per day

Course Title: Dalet Advance System Administrator Training

Course description: This training covers the required knowledge to be able to administrate the Dalet System.

-System health monitoring, system maintenance checking, report an issue to Dalet support through Dalet Support CRM, be able to troubleshoot issues along with Dalet Support engineer, be able to collect relevant application logs to send to Dalet Support, be able to do some advance troubleshooting of the systems, learn how to interpret Dalet system log to be able to conduct issue investigation.

Course Length: 5 days.

Minimum Participant: 4

Maximum Participant: 12

GSA Price: \$1,481.11 per person/per day

132-33	Dalet	DP.PP.SFT.AB	Safety Studio for A/B Roll	This module enables the control of a redundant safety channel on a video server in order to protect playout against media port failure on the video server. The safety channel will execute the same playout commands as the original 'master' channels. In case the master channels fail, the user can move into 'safety mode', where playout commands are invoked directly on the safety channel, and the safety channel output will be routed to the final router output port. Requires additional port(s) on the video server. - Redundant control of video servers - Per broadcast channel	EA	\$8,392.95	ISRAEL
132-33	Dalet	DP.PP.SFT.ABCD	Safety Studio for AB/C/D Roll	This module enables the control of a redundant safety channel on a video server in order to protect playout against media port failure on the video server. The safety channel will execute the same playout commands as the original 'master' channels. In case the master channels fail, the user can move into 'safety mode', where playout commands are invoked directly on the safety channel, and the safety channel output will be routed to the final router output port. Requires additional port(s) on the video server. - Redundant control of video servers - Per broadcast channel	EA	\$8,392.95	ISRAEL
132-33	Dalet	DP.RDS	Dalet RDS ASCII exporter	Dalet RDS plug-in sends play-list information in ASCII format to RS 232 port for reception by an RDS encoder. - Licence fee is by site.	EA	\$1,678.59	ISRAEL
132-33	Dalet	DP.SCMR1	Dalet Music Rotation server	A Dalet Music Rotation server allows for constraint-based programming of music programmes. licence fee is by broadcast channel - Per broadcast channel	EA	\$3,455.92	ISRAEL
132-33	Dalet	DP.MOS.NRCS	MOS Gateway to 3rd party NRCS	This license is applicable when Dalet Enterprise Edition is used as a MAM and/or an Automation and/or a Production system. Thanks to a dedicated MOS Gateway, Dalet can be interfaced with 3rd party NRCS such as ENPS, iNews or Open Media. - Integration with a 3rd party NRCS (iNews, ENPS...)	EA	\$22,463.48	ISRAEL
132-33	Dalet	DP.CP.SCH	Integration with 3rd party traffic or scheduling system	Includes import of playlists and metadata and export of As Run logs in XML or ASCII formats. If non Dalet standard format must be used, additional services must be quoted separately. License is per 3rd party system. - Per system	EA	\$9,874.06	ISRAEL
132-33	Dalet	DP.RCS	Dalet Report Center license for small and medium sites	The Dalet Report Center license includes 10 reports that are pre-configured by Dalet and ship the same to all customer. Not report customization. Reports can be accessed by up to 5 five named users. Additional user-based licenses may be purchased separately - ask for quote. - Price per System, includes 10 pre-configured reports for up to 5 named users	EA	\$14,811.08	ISRAEL
132-33	Dalet	DP.AVID.INTERPLAY	Interface with Avid Interplay	This license provides media, sequence, and metadata integration between Dalet and Avid Interplay environments. This license supports the conforming (flattening) of edit sequences upon export from Avid edit clients. This license includes 4 concurrent import/export transfers in realtime. If more simultaneous transfers are needed, licenses for 'additional transfer engines' should be purchased. - Per Interplay system, includes 4 concurrent transfers to/from Avid	EA	\$29,622.17	ISRAEL
132-33	Dalet	SV.INST.OS	Other Data Migration services	Other Data Migration services	EA	\$1,333.00	N/A

132-33	Dalet	DP.OUT.ENG	Export to ENG (P2, XDCam)	The Export to ENG modules allows the export of material stored in the Dalet Content Catalog as MXF to a P2 or XDCAM device. license is per connected device. - per connected device - requires ingest module	EA	\$493.70	ISRAEL
132-33	Dalet	DP.NLEDV	Standard interface with other NLEs	Import/export (and converts automatically wrappers to the appropriate format) of media files. Works for popular editing systems such as Vegas Video, Avid Xpress DV, Pinnacle Liquids. License fee is per type of integration and per enabled workstation. - Media exchange only - per 3rd party editing system	EA	\$4,937.03	ISRAEL
132-33	Dalet	DP.ML.CC.VID	Closed-Captions/Subtitles video extraction & insertion	This license enables closed captions & subtitles to be extracted upon baseband ingest and inserted in output files. Ask Softel for detailed quote. - Ask for quote	EA	\$11,848.87	ISRAEL
132-33	Dalet	7RQ-00003	Microsoft® SQL Svr Standard Runtime Core 2012 (2 Core License, licensed under the applicable Microsoft License Terms)	Under the per-core licensing model, each server running SQL Server 2012 software must be assigned an appropriate number of core licenses. Core licenses are sold in packs of two; so customers must divide the number of physical cores of the database server by two, to determine the actual number of license to order. The per-core model allows access for an unlimited number of users or devices. The secondary server on a cluster being used for failover support does not need to be separately licensed for SQL Server as long as it is truly passive. - Computed according to the number of physical cores of the Database Server	EA	\$2,364.84	ISRAEL
132-33	Dalet	C30-00376	Microsoft® SQL CAL Runtime 2012 (licensed under the applicable Microsoft License Terms)	For small systems, Microsoft SQL Server Licensing is based on Runtime client access license (CAL). Requires CALs for each client device including all Dalet application servers. Formula compares if it's cheaper to buy CAL rather than Runtime. - Per application server, workstation, web client or Xtend client	EA	\$161.93	ISRAEL
132-33	Dalet	DP.MM.WS	Dalet WebSpace Server (includes 3rd party Wowza® Streaming Engine licenced under Wowza® EULA)	The WebSpace Server software includes the Web Server component for Dalet web clients and a Wowza® Streaming Engine license (3rd Party) for video preview in Dalet WebSpace. One license is required for each server. If Network Load Balancing is used, a license is required for each NLB node. The Wowza® Streaming Engine is subject to End User Licence Agreement (EULA) between customer and Wowza Media Systems, LLC available at http://www.wowza.com/resources . - 1 server for every 100 users, add 1 license if you need more redundancy	EA	\$4,443.32	ISRAEL
132-33	Dalet	DP.ONB	Dalet NetBack for Radio OnAir	Dalet NetBack replicates automatically titles (metadata and essence), categories and rundowns as back-up on a broadcast workstation through a LAN. License fee is by workstation and by broadcast channel. It includes a second broadcast application licence of back-up workstation (to be used on back-up workstation for redundancy only). A database licence is required. - Per Workstation	EA	\$4,937.03	ISRAEL
132-33	Dalet	DP.IN.FLEX	Control of Sony Flexicart robot for massive ingest	Dalet Control of Flexicart robot for massive ingest module controls a Flexicart robot for ingest of video material on a validated video server. License fee is by Flexicart channel. Ingest Automation license must be quoted separately. Price of hardware is not included. Per Flexicart, Ingest automation license is not included	EA	\$19,748.11	ISRAEL
132-33	Dalet	DP.MOS.CGOT	Advanced graphics integration server	Allows to combine standard MOS integration with automation playout of CG devices positioned on Dalet Mediacutter. Graphics plugin for Mediacutter and Character Generator play-out control licenses to be purchased separately. - per validated CG device	EA	\$9,874.06	ISRAEL
132-33	Dalet	TF.PS	Dalet TrackFiler	Dalet TrackFiler automatically imports tracks from CDs. Conversion to any audio supported format. Title metadata available on CD or on-line can be automatically imported. - Per Workstation	EA	\$2,468.51	ISRAEL
132-33	Dalet	DP.RD.RADIO	Dalet Radio OnAir (Player and Carts)	Dalet OnAir Player ensures live and automatic broadcast of a single playlist. Depending on the hardware configuration, up to 4 simultaneous discreet audio channels can be played-out from a single workstation. Dalet Carts provides on-demand broadcast of audio bites. Multiple cart lists can be configured and displayed simultaneously. License fee is by workstation; it includes Dalet Broadcast Application server licence. A audio compatible board is required. - Per Workstation	EA	\$3,455.92	ISRAEL
