1. CUSTOMER INFORMATION:

1a. Table of Awarded 132-51 SINs:

LABOR CATEGORY	DESCRIPTION	2016 PRICE
Consultant Engineer	Has published articles and books in field of endeavor. Is recognized by at least one professional organization as an expert. Has a professional license in field of endeavor. Is called upon due to expertise in a particular field. Has varied project experience and demonstrated contributions to more than one field of endeavor. Has served as a professional engineer for at least two years.	\$196.31
Professional Engineer	Has a professional license in field of endeavor. Has varied project experience (preferably multi-disciplinary) and demonstrated contributions to more than one field of endeavor. Can cite sources for data and recommend techniques. Has served as a senior systems analyst or senior engineer for at least three years.	\$155.76
Senior Systems Analyst/Senior Engineer	Performs as principal investigator responsible for problem definition, data collection, methodology, and conclusions on multiple analyst studies and evaluations. Must have demonstrated expertise in simulation modeling, and/or statistical applications. Can work independently at remote locations. Manages large project efforts. Provides technical and administrative direction for personnel performing software development tasks, including the review of work products for correctness, adherence to the design concept and to user standards, and for progress in accordance with schedules. Has served as a senior computer systems analyst or senior programmer analyst for at least four years.	\$139.44
Senior Computer Systems Analyst	Works independently or under only general direction to resolve application problems including multiple application systems and associated interfaces involving all phases of system analysis and design. Coordinates with the management to ensure problem solution and user satisfaction. Makes recommendations, if needed, for approval of major systems installations. Prepares milestones status reports and delivers presentations on the system concept to colleagues, subordinates, and user representatives. Supervises and provides technical direction to lower level systems analysts who are assigned to assist. Maintains small to large scale IS's which may be implemented on mainframe(s), minicomputer(s), or microcomputer(s). Evaluates existing IS's. Interfaces with the user. Participates in and conduct structured walkthroughs. Manages and directs a small team composed of analysts, programmers, users, and specialists.	\$135.75
Senior Programmer Analyst	Under general supervision, analyzes systems requirements and design specifications. Develops diagrams and logic charts as required. Translates detailed design into computer programs. Tests, debugs, and refines the computer program to produce the required product. Prepares required documentation to include both program and user level documentation. Enhances programs to reduce operating time or improve efficiency. Supervises and provides technical direction to less experienced programmers. Maintains IS's which may be implemented on mainframe(s), minicomputer(s), or microcomputer(s) and interfaces with other IS's. Analyzes specifications and designs prepared by analysts. Interfaces with the user. Participates in and conducts structured walkthroughs. Conceives and develops new testing and programming techniques.	\$122.70
Operations Manager	Supervises personnel concern with data preparation, processing and distribution of input and output. Establishes and maintains quality control procedures for the production environment. Establishes schedules for the production environment to obtain maximum usage of ADP equipment. Conducts periodic inventory of hardware.	\$106.32
Senior Computer Programmer	Under general supervision, analyzes systems requirements and design specifications. Develops diagrams and logic charts as required. Translates detailed design into computer programs. Tests, debugs, and refines the computer program to produce the required product. Prepares required documentation to include both program and user level documentation. Enhances programs to reduce operating time or improve efficiency. Supervises and provides technical direction to less experienced programmers. Follows guidance established in USMC IS Standard. Maintains IS's which may be implemented on mainframe(s), minicomputer(s), or microcomputer(s) and interfaces with other IS's. Analyzes specifications and designs prepared by analysts. Interfaces with the user. Participates in and conducts structured walkthroughs. Conceives and develops new testing and programming techniques.	\$84.93
