Products and ordering information in this Authorized Information Technology Schedule Pricelist are also available on the GSA Advantage! System (http://www.gsaadvantage.gov).
CORE COMPETENCIES
Managed Services related to:

- Data Integration
- Cloud Migration
- Cybersecurity Monitoring

PAST EXPERIENCE
We provide information exchange and data integration services for several private and public organizations, including:
- Hillsborough County
- Florida Departments of Management Services and Health
- Texas Department of State Health Services
- National Association of Public Health Statistics and Information Systems
- Association of Public Health Laboratories

We designed, developed, and still maintain the CDC/APHL Laboratory Exchange Hub named AIMS which:
- Facilitates bidirectional secure health information exchange with all 50 states and the CDC
- Exists in a secure, HIPAA and FISMA Moderate compliant AWS cloud-based environment

Leader of the Florida Department of Health's Data Integration Team, which:
- Facilitates the flow all data coming into and leaving the state

DIFFERENTIATORS
Proven in successfully designing, building, implementing, and operating solutions of significant size and scope in a broad range of healthcare settings.

Recognized as an innovator in establishing new capabilities for information system interoperability that unify critical federal, state, and local health IT efforts for the first time.

COMPANY MISSION
Ruvos is on a mission to deliver clever and efficient solutions to problems so that the world is a better place for the communities we serve.

C. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

2. Maximum order.

Special Item Number 54151HEAL - $500,000
Special Item Number 54151S - $500,000
Special Item Number OLM - $100,000

3. Minimum order. $100.00

4. Geographic coverage (delivery area). CONUS

5. Point(s) of production (city, county, and State or foreign country). Same as contractor address

6. Discount from list prices or statement of net price. 6%, 10% and 20% from list price

7. Quantity discounts. 2% off of orders over $250,000

8. Prompt payment terms. Note: Prompt payment terms must be followed by the statement "Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions." Net 30 Days.

9. A. Notification that Government purchase cards are accepted at or below the micro-purchase threshold.

Purchase cards are accepted at or below the micro-purchase threshold.
B. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold.

Purchase cards are accepted above the micro-purchase threshold.

10. Foreign items (list items by country of origin).

None

11. A. Time of delivery.

30days after receipt of order

B. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price lists that have expedited delivery.

Customer may contact the Contractor for expedited delivery

C. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery.

Customer may contact the Contractor for rates for overnight and 2-day delivery

D. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery.

Customer may contact the Contractor to effect a faster delivery

12. F.O.B. point(s).

Destination

13. A. Ordering address(es).

Ruvos LLC
2252 Killearn Center BLVD
Suite 300
Tallahassee, FL, 32309-3573
B. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address(es).

Ruvos LLC
2252 Killearn Center BLVD
Suite 300
Tallahassee, FL, 32309

15. Warranty provision. Established at time of order

16. Export packing charges, if applicable. N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level). N/A

18. Terms and conditions of rental, maintenance, and repair (if applicable). N/A

19. Terms and conditions of installation (if applicable). N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). N/A

   a. Terms and conditions for any other services (if applicable). N/A

The EIT standard can be found at: www.Section508.gov.

25. Data Universal Number System (DUNS) number. 180993532

26. Notification regarding registration in Central Contractor Registration (CCR) database.

Registered with Cage Code 59PT5

Data Architect

**Description:** Provides for the maintenance and support as well as the design and development of integration processes for multiple database systems using various integration tools, including Cloverleaf, Mirth, and Rhapsody integration software. Experience in healthcare related database development, administration, data warehousing, data storage, and the transmission of data as well as cybersecurity concepts involving data transmission and storage are required.

**Minimum Years of Experience:** Five or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

System Analyst

**Description:** Creates documentation of meetings, findings, and suggestions resulting from testing new or existing software with healthcare IT components. Provides written manuals and/or standard operating procedures. Provides managerially requested activities, reports, analytical research and communication for each incident, enhancement, or user ticket. Provides managerially requested reports on activities and progress, written analytical research, and documentation of communication for each defined request.

**Minimum Years of Experience:** Three or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

Business Intelligence Analyst
Description: Responsible for developing, implementing, and supporting reporting analytics and business intelligence solutions to meet the information needs of the healthcare organizations. Gathers data from a variety of sources and formats to support one or more business units in preparing weekly and monthly analyses and reports to drive the business while ensuring accuracy and consistency.

Minimum Years of Experience: Three or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

Enterprise Integration Engineer

Description: Develops and implements solutions coordinating applications across a wide variety of healthcare stakeholders and systems. Evaluates existing components or systems to determine integration requirements and to ensure final solutions meet organizational needs. This position requires a strong background in software development and experience in the healthcare domain. Experience with multiple EMR systems such as Cerner, Epic, and integration engines such as Mirth or Rhapsody. Experience with large, complex integration projects.

Minimum Years of Experience: Five or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

System Administrator

Description: Responsible for the development, installation, maintenance, and performance tuning of the computer operating system software and/or hardware in healthcare or public health settings. Provides continuous review of the performance of overall computer operating system utilizing interactive and batch monitoring software products to ensure balance of workload over mass-storage devices and optimal CPU utilization. Installs new system and application software. Maintains existing system and application software. Develops and maintains technical standards, procedures and techniques for the resolution of software problems to ensure maximum system availability and performance levels for the user community. This includes working with vendor technical specialists in modifying, correcting, and installing vendor provided software. On-call duty. Assists users with technical difficulties and provide problem resolution. Performs related duties as required.

Minimum Years of Experience: Five or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

Software Developer
**Description:** Builds complex web interfaces that combine with front end web technologies and back end data transport, integration, storage, and visualization in cloud environments of healthcare data. The portals and web apps are used in the public and private health sectors. It is required that you have 3 years of full stack web development experience including git/version control, HTML/CSS/Angular JS, experience with RESTful APIs, familiarity with AWS services including EC2, S3, CloudFront, and RDS, knowledge of core internet protocols including HTTP/DNS/TCP/ICMP. Previous exposure to Node.js, Java, Bootstrap, Puppet, ELK Stack. Needs to be comfortable learning new programming languages quickly. Previous exposure to cyber security concepts and tools like AlienVault. Basic understanding of graphics and user interface concepts. Healthcare IT experience a plus.

**Minimum Years of Experience:** Three or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

---

**Project Manager**

**Description:** Ensures that the project objectives are met and that the project is delivered on time and within budget. The project manager is responsible for creating, maintaining and refining project plans, tracking project schedules and technical performance, and leading both the business and technical teams on healthcare IT projects. Project deliverables will follow best practices as detailed in PMBOK. The project manager will allocate resources, shape priorities, and coordinate interaction with the project team, stakeholders, vendors, users, and customers to keep the project team focused on the right goals. The project manager will also follow best practices to ensure the integrity and quality of project artifacts.

**Minimum Years of Experience:** Three or more years of experience is required. Minimum Education: A bachelor’s degree in computer science, information systems, or business administration, and a PMP training or certification.

---

**Application Architect**

**Description:** Proposes new application technology using latest tools and technology available for application in healthcare IT and public health reporting. Reports any changes to the specification document to the technical team lead as well as any risks that arise during development. Identifies all code within both applications that must be changed and provides detailed estimates for code changes. Comprises a report indicating the scope of development work required for new applications.

**Minimum Years of Experience:** Three or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.
Healthcare IT Consultant

**Description:** Working in partnership with client leadership, the Healthcare IT Consultant advises on overall healthcare information technology strategy as it relates it the organization's business objectives.

**Minimum Years of Experience:** Five or more years of experience is required. Minimum Education: A bachelor's degree in information systems, business administration, or informatics, and a PMP training or certification.

Technical Architect

**Description:** Oversees total system development, deployment, and maintenance related to company or client network, database, and web related systems. Investigates and analyzes new technology solutions for healthcare IT problems. Oversees IT projects and provides executive level reports.

**Minimum Years of Experience:** Five or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

Database Administrator

**Description:** Responsible for the performance, integrity, and security of healthcare information databases. Involved in the planning and development of the database, as well as troubleshooting issues within the database. Maintains database performance by calculating optimum values for database parameters, implementing new releases, completing maintenance requirements, and evaluating computer operating systems and hardware products.

**Minimum Years of Experience:** Two or more years of experience is required. Minimum Education: A bachelor’s degree in computer science.

Security Specialist

**Description:** Specializes in the security of the network and all applications that are within the healthcare IT solution or application. Determines who requires access to which information, and then plans, coordinates, and implements information security programs. Using a multi-layered approach, they use their specialized expertise and up-to-date knowledge to help protect against web threats that facilitate cybercrime including malware, phishing, viruses, denial-of-service attacks, information warfare, and hacking.
Minimum Years of Experience: Three or more years of experience is required. Minimum Education: A bachelor’s degree in computer science
