- 15. Warranty Provision:** QO Sales Co warrants that equipment purchased under this agreement requiring installation by QO Sales Co's authorized personnel will be free from defects in workmanship and materials for one year following the original date of installation by QO Sales Co's authorized personnel. QO Sales Co warrants that equipment purchased under this agreement not requiring such installation will be free from defects in workmanship and materials for one year following the date of shipment. Accessory products (i.e. Uninterruptible Power Supplies, etc.) sold but not manufactured by QO Sales Co will be warranted, if at all, solely by the manufacturer thereof and not by QO Sales Co. QO Sales Co's exclusive obligation for a breach of this warranty will be, in its sole discretion, to repair or replace the equipment or to refund the purchase price thereof. QO Sales Co will have no obligation with respect to this warranty unless the Government customer provides QO Sales Co with notice of a breach of the warranty within twenty business days of discovery of the breach.

- 16. Export Packing Charges:** Not Applicable.

- 17. Terms and Conditions of the Government Credit Card Acceptance:** No discount offered for credit card payments.

- 18. Terms and Conditions of Rental, Maintenance and Repair:** Contractor retains title to capital equipment and shall provide new or refurbished state-of-the-art equipment including:

- Installation
- Supplies
- Training:

Key Operator Training is included with the purchase of each system. It is designed as comprehensive operational training and concentrates on the software capabilities of the VITROS® system as well as basic operation and maintenance. The number of Key Operators and duration of basic training, which is consistent

with that offered to commercial customers, are shown in the table below. Additional training slots beyond what comes with the initial equipment acquisition can be purchased additionally or included in the CPT or CPRR prices. See Table H for prices. FSS Solicitation requires us to provide 2 training slots per analyzer.

System Description	Days	Number of People Trained per System	Additional KOT Cost per Person (includes IFF)
VITROS® 250 Refurbished	4	2	\$4,500.00
VITROS® 350 Chemistry Systems	4	2	\$4,500.00
VITROS® ECi Refurbished	4	2	\$4,500.00
VITROS® ECiQ Systems	4	2	\$4,500.00
VITROS® 3600*	4	2	\$4,500.00
VITROS® 4600*	5	2	\$5,775.00
VITROS® 5600*	5	2	\$5,775.00
VITROS® XT 7600	5	2	\$5,775.00
VITROS® XT 3400			\$4,500
ORTHO VISION™ Analyzer	3	1	\$5,535.00
IM enGen	3	1	N/A

* Online Operator training is an accredited web-based program that is a prerequisite to Key Operator Training on these Systems

(1) Choosing a Key Operator

Selecting the appropriate candidate to become a VITROS® System Key Operator increases the value of a VITROS® System investment. The Key Operator will assume overall responsibility for the operation of the VITROS® System. Key Operator Training is a comprehensive course that focuses on the software capabilities of the VITROS® System and covers basic operation and maintenance skills.

Once trained, the Key Operator will be fully prepared to assume overall operational responsibility for the VITROS® System. Training should occur prior to system verification to streamline the implementation process.

(2) Timing of Key Operator Training

Key Operators should attend training while the equipment is in transit and/or have training completed prior to the start of the onsite implementation process. It is both beneficial and necessary to have a Key Operator present and able to assist during verification and validation. Key Operator training slots included in the purchase of the analyzer expire at 18 months after installation.

(3) Location of Key Operator Training

Key Operator training takes place at QuidelOrtho's state-of-the-art training facility in Rochester, NY, with the exception of the ORTHO VISION™ Analyzer and IM enGen training which is conducted at the customer site. The comprehensive program will provide the tools to operate the VITROS® System proficiently and productively. QuidelOrtho's in-house training allows for a seamless transition and expedites the implementation of your VITROS® Systems.

(4) Scheduling Key Operator Training

An QuidelOrtho Account Manager will work with the customer to provide a current Key Operator Training schedule and register the Key Operator(s) for the class. It is highly recommended that the training be scheduled within two (2) weeks of installation to maximize the transition of classroom knowledge to application.

To register a Key Operator, a customer should provide the following information, for each person attending Key Operator Training, to the QuidelOrtho Account Manager or Regional Implementation Coordinator:

- (a) Full name as it appears on driver's license
- (b) Job title
- (c) Cell phone number
- (d) Airport preference
- (e) Emergency contact information
- (f) Home address
- (g) Special needs for flight or hotel

Approximately two weeks prior to the scheduled training date an QuidelOrtho TeleServices agent will contact the Key Operator(s) directly to make air travel arrangements. Shortly thereafter a package of information will be mailed that contains hotel, ground transportation, and more information regarding the training.

General Operator training is performed after the Key Operator(s) have been trained and installation and System Verification have been completed. The number of General Operators trained and duration of basic training, which is consistent with that offered to commercial customers, is shown in the table below.

VITROS® Analyzer Description	Number of People Trained (per session)	Number of Sessions	Total Trained
VITROS® 250 Refurbished	3	2	6
VITROS® 350 Chemistry Systems	3	2	6
VITROS® XT3400 Chemistry System	3	2	6
VITROS® ECI Refurbished	3	2	6
VITROS® ECIQ System Only	3	2	6
VITROS® 5600	3	2	6
VITROS® XT 7600	3	2	6
VITROS® 4600	3	2	6
VITROS® 3600	3	2	6
IM enGen	3	2	6

(1) Choosing Your General Operator(s)

General Operator training will be provided to a predetermined number of customer-designated employees over a predetermined number of 2-4 hour sessions as indicated in the table above.

(2) Timing of General Operator Training

General Operator training is performed after the Key Operator(s) have been trained and Installation and System Verification have been completed.

(3) Location of General Operator Training

General Operator training takes place on-site at the Government customer's facility.

(4) Scheduling General Operator Training

The QuidelOrtho Laboratory Specialist will work with the Key Operator or other designee in order to develop a training schedule for all General Operators. This training is provided over a predetermined number of sessions, usually three operators trained per session for two sessions conducted in the same day. Training will occur between the hours of 7:00 AM and 7:00 PM Local Time Monday through Friday.

- Each session will be approximately 3 to 4 hours in length.
- Your Key Operator will participate in at least one training session as an active instructor.
- The General Operator Instructor's Guide will be used in its entirety, including the completion of all exercises by the designated General Operators.

MTS Tipmaster Workstation

Workstation training is performed at the customer site by the Transfusion Technical Specialist.

- Service:
 - a) Service Descriptions (Systems include VITROS® 250 Refurbished Systems, VITROS® 350 System, VITROS® XT3400, VITROS® 5,1 FS Refurbished Systems, VITROS® 4600, VITROS® 3600, VITROS® 5600, VITROS® XT 7600, VITROS® ECI Refurbished, and VITROS® ECIQ Systems):

Service Level	Description
Ortho Care with Weekend and Same Day Response	(Available based on geographic location. Please contact QuidelOrtho for additional CPT/CPRR pricing and information.) 24-hours per day, 7-days a week, 365-days per year technical hotline support (24x7x365).

Service Level	Description
	On-site service support Monday-Sunday, including holidays • Same day service if call received before noon local time • Calls after noon will be serviced the next day Replacement of non-consumable parts, consumable parts are not covered Manufacturer required periodic maintenance to clean, test, and maintain equipment • Labor, travel, and parts at no cost All manufacturer required modifications and associated software upgrades • Labor, travel, and parts at no cost
Ortho Care with Weekend Coverage (8:00 AM-5:00 PM, 7 days/week)	(Available based on geographic location. Please contact QuidelOrtho for additional CPT/CPRR pricing and information.) 24-hour per day, 7-days a week, 365-days per year technical hotline support (24x7x365) On-site service support Monday-Sunday, 8:00am – 5:00pm local time, excluding holidays • Labor and travel at no charge within coverage hours • Service scheduled no later than the next covered business day On-site service available outside coverage hours at prevailing prices • Based on Field Engineer availability, labor and travel will be charged • Parts will not be charged as they are covered under the Ortho Care with Weekend Service Plan Replacement of non-consumable parts, consumable parts are not covered Manufacturer required periodic maintenance to clean, test, and maintain equipment • Labor, travel, and parts at no cost All manufacturer required modifications and associated software upgrades • Labor, travel, and parts at no cost
Ortho Care Basic (8:00 AM-5:00 PM, Monday-Friday)	(Included in CPT and CRRR prices) 24/7/365 phone support via our Customer Technical Services Hotline On-site service support Monday-Friday, 8:00am – 5:00pm local time, excluding holidays • Labor and travel at no charge within coverage hours • Service scheduled no later than the next covered business day On-site service available outside coverage hours at prevailing prices • Based on Field Engineer availability, labor and travel will be charged • Parts will not be charged as they are covered under the Basic Ortho Care Service Plan Replacement of non-consumable parts, consumable parts are not covered Manufacturer required periodic maintenance to clean, test, and maintain equipment • Labor, travel, and parts at no cost All manufacturer required modifications and associated software upgrades • Labor, travel, and parts at no cost
Preventive Maintenance (“PM”)	Each piece of equipment under contract will receive a thorough inspection developed to prevent unplanned service events. Each PM includes all non-consumable parts, field engineer labor, and travel. PMs are performed per manufacturer’s instructions.

- b) Telephone Assistance from the QuidelOrtho Hotline is available 24 hours per day by 7 days per week. When QuidelOrtho Hotline determines that the customer has a problem that cannot be resolved with telephone assistance, a Field Engineer may be dispatched. QuidelOrtho Field Engineers will perform on-site service during contract coverage hours.
- c) During the term of this agreement the customer shall be responsible for providing routine maintenance on all equipment covered hereunder as specified in the Operator’s Manual. Failure to follow such routine maintenance procedures may result in service charges to repair the equipment or to otherwise bring the equipment back into compliance with QuidelOrtho specifications for such equipment.
- d) Preventative maintenance calls will be performed by QuidelOrtho to clean, test, and maintain covered equipment in accordance with commercial practices and manufacturers recommendations. This will include all labor and parts used during the PM. The number of recommended PM calls per year is model specific and

are specified in the ~~Ortho~~ Service Manual for each model. PM calls will only be made between the hours of 8:00 am and 5:00 pm local time, Monday through Friday, excluding Federal and local holidays.

- e) Health and Safety related Modification Kits include all labor and parts used in the installation that are required to implement the modification. These calls will only be made between the hours of 8 AM and 5 PM local time, Monday through Friday, excluding Federal and local holidays.
- f) Routine operational software and hardware system upgrades will be installed at no additional charge.
- g) The customer agrees that neither it nor its employees or agents will alter or modify any part of the equipment or software unless such action is expressly authorized in writing by QuidelOrtho. Any modification of or damage to any part of the equipment or software, whether by misuse, negligence, unauthorized repair or relocation, improper site preparation, unauthorized or improper integration with other products, accident, act of nature or otherwise (unless attributable to QuidelOrtho's negligence), may result in service charges to repair the equipment or software or to otherwise bring the equipment back into compliance with Ortho specifications for such equipment or software.
- h) The customer shall notify QuidelOrtho prior to relocating any equipment. Any such relocation made without the express prior written approval of QuidelOrtho service personnel shall void all service obligations hereunder. Charges associated with the relocation and set-up at the new location are not covered under this agreement.
- i) The following ID-MTS Workstation Component will only be covered by a "repair-by-replacement" policy. This is for **existing** ID-MTS Workstation customers only. This policy is **not** being offered for any new customers.
 - 6904630 MTS Workstation™
- k) To obtain service call QuidelOrtho Customer Support Center at 800-421-3311

18a. Federal Government Cost Per Test (CPT) Program

Cost Per Test Pricing Includes:

- Reagents needed to perform the total of all tests specified for the fiscal year.
- Equipment usage
- Service
- Accessories (as needed)
- Consumables
- Single ship-to/single bill-to required

Ordering

- Customers must estimate their annual test volumes in conjunction with their local QuidelOrtho representative.
- Annual delivery orders should be established based on the estimated annual test volume including those tests necessary for repeats, calibration and controls.
- Shipments of reagents and consumables can be made either quarterly or biannually (it is imperative for laboratory efficiency and longest calibration stability to have minimum quarterly shipments).
- Customers may, at their choice, allow shipment of product per the pre-determined schedule and/or order via phone, fax, or on-line through our web site as needed.

Pricing

- Prices are inclusive of equipment, reagents, consumables, service, training, and shipping.
- Any additional accessories will be added on to the cost per test based on the attached pricing.
- Pricing will be established based on the total estimated annual volume of slides/tests/wells/cards to be shipped.
- Prices will be billed per slide/test/well/card shipped multiplied by the number of slides/tests/wells/cards contained in each shipping unit of measure.
- Pricing for customers whose volumes are greater than the highest volume tiers will be calculated independently.

Administration

- Annual reviews will be conducted to confirm/adjust shipment quantities.
- If a customer fails to meet its annual shipment estimate, QuidelOrtho will have the right to request a contract modification to adjust CPT/CPRR volume and or pricing as a result of its annual audit.
- Title to the equipment will remain with the contractor.

18b. Federal Government Cost Per Reportable Result (CPRR) (SIN 605-1a and SIN 605-6a only)

Cost Per Reportable Result Calculation Includes:

- Reagents needed to perform the total of all patients tested, calibrations, Q.C., and repeats for the committed year.
- Equipment usage
- Service
- Accessories (as needed)
- Consumables
- Single ship-to/single bill-to required

Ordering

- Customers must estimate their annual reportable test volume in conjunction with their local QuidelOrtho representative.
- Annual delivery orders will be established based on the estimated annual test volume including those tests necessary for repeats, calibration, and controls.
- Shipments of slides/tests/wells and consumables may be made either quarterly or bi-annually (it is imperative for laboratory efficiency and longest calibration stability to have minimum quarterly shipments).
- Customers may, at their choice, allow shipment of product per the pre-determined schedule and/or order via phone, fax, or on-line through our web site as needed.
- Not available for customers with less than a 100,000 patient test volume for Chemistry (SIN 605-1a) or less than 10,000 patient test volume for Immunochemistry (SIN 605-6a).

Pricing

- Prices are inclusive of equipment, reagents, consumables (Clinical Chemistry and Immunodiagnostics only), service, training, and shipping.
- Any additional accessories will be added on to the Cost Per Reportable Result Program based on the attached pricing.
- Pricing will be established based on the total estimated annual patient volume of slides/tests/wells to be reported.

Administration

- An initial inventory of Ortho products will be conducted prior to the beginning of the CPRR program.
- Customer will be shipped product based on quarterly or bi-annual standing orders (or may phone in orders when necessary).
- On the contract anniversary date, a review will be conducted on reagents and consumables ordered versus billed. If the actual amount of consumables or reagents ordered (less customer inventory) exceeds the dollar amount QuidelOrtho would estimate to run the actual patient tests, then QuidelOrtho reserves the right to conduct an on-site audit to review the laboratory's efficiency. QuidelOrtho reserves the right to adjust the CPRR volume/and or pricing as a result of such audit. Customer will agree to print usage counter reports (following established protocols) from the analyzer on the first day of each calendar month. Any test run on a VITROS® XT 7600, 5600, 4600, XT 3400, or 3600 with a quantity of greater than zero in the Patient Column will be considered a reportable test and will be invoiced. For VITROS® 250, 350, and ECI Analyzers, any tests listed as INPAT or OUTPAT, will be considered a reportable test and will be invoiced.
- Customer will provide the Usage Counter Reports to QuidelOrtho by the 5th of each month. If the required data is not received in the prescribed timeframe, the customer will be billed at the appropriate CPT rate based on the quantity of product shipped.
- Quarterly and/or annual reconciliation/business reviews will be conducted between customer and a qualified representative of QuidelOrtho to determine if additional billing/credit is due based on the number of actual reported results performed.
- Customer may amend reportable result estimates annually.
- Title to the equipment will remain with the contractor.

18.a. and b. (New orders issued after 3/31/2020 the following term will replace "Administration: as described in 18.a. and 18.b.")

Reconciliation

Volume reconciliations are performed every six months for Cost per Test and Cost per Reportable Result customers. If a Customer fails to purchase ninety percent (90%) in the aggregate of the test volume commitment for any two (2) consecutive calendar quarters, upon written notice to Customer and by mutual consent, one of the following shall occur: (a) adjustment of the CPT/CPRR price based on updated assumptions will be made, (b) charge to Customer in the amount equal to the shortfall between purchase order/agreement and actual quantity of tests/results purchased

or reported by Customer, or (c) consider and implement other alternative measures to remedy purchase order/agreement shortfall.

Cost per Test and Cost per Reportable Result customers are also responsible for the efficient use of the products shipped to them by QuidelOrtho under a CPT/CPRR contract. If a Customer fails to maintain the actual Efficiency Usage (defined as patient tests/reportable results divided by the number of tests shipped to customer to complete the patient tests/reportable results) at a level of ninety percent (90%) or better and/or exceed the allowable no charge quantities for reagents, controls, and consumable products, as designated on the individual customer agreement Pricing Supplement, Customer will be charged the corresponding CPT base pricing per the FSS schedule and designated on the individual customer agreement Pricing Supplement for the amount of Supplies ordered beyond the Efficiency Usage Commitment and allowable no charge quantities. In the event that the Customer's consumption consistently deviates by more than the ten percent (10%) allowance, upon written notice to Customer and by mutual consent, one of the following shall occur: (a) QuidelOrtho will recalculate the operating assumptions and CPT/CPRR price to more accurately reflect Customer's actual Supplies usage efficiency; (b) QuidelOrtho will adjust Customer's standing orders; or (c) QuidelOrtho will convert Customer's acquisition method as appropriate.

- 19. Terms and Conditions of Installation:** Installation by the contractor's representative shall be in accordance with Ortho-Clinical Diagnostics' commercial installation and operation manuals/instructions and shall include:
- Installation conducted 8:00 AM-5:00 PM, Monday through Friday
 - Unpacking the equipment
 - Inspection to insure that all required components are present
 - Assembling into normal operating configuration
 - Performing complete system check including diagnostics, standardization/calibration
 - On-site operator training for up to two (2) additional General Operators (in addition to the trained Key Operator) over a period of no more than four-days during normal business weekday hours. Training for additional personnel and/or during hours other than those specified will incur an additional charge to the Government facility. Refer to the training tables on page 54 (Clinical Chemistry and Immunoassay) and 62 (MTS) for additional information.
 - Installation is required within 72-hours after site preparation has been completed in conformance with manufacturer's specifications and upon mutual agreement of both parties.
 - Site preparation is the Government's responsibility.
- 20. Terms and Conditions of Repair Parts:** Replacement of all worn-out or defective non-consumable parts on covered equipment replaced during an on-site service visit will be at no charge. Consumable parts are not covered by this agreement and are the responsibility of the customer. Replacement Parts may be new or reconditioned to perform as new. Parts removed from equipment and replaced, unless previously agreed, shall, at QuidelOrtho's discretion, become the property of QuidelOrtho. All parts replaced at no charge must be returned to QuidelOrtho within thirty (30) days after replacement when the Replacement Part(s) are shipped directly to Customer. The Customer may also order certain replacement, non-consumable parts directly from QuidelOrtho. The cost of standard shipping is included. A charge for Premium shipping (NFO, Next Day) will be billed if this is requested by the customer. All consumable parts will be charged to customer.
- 20a. Terms and Conditions for Any Other Services:** N/A
- 21. List of Service and Distribution Points:**
- Service: QuidelOrtho Sales Company has Customer Equipment Service Representatives located throughout the CONUS, AK and HI. To obtain service call QuidelOrtho Customer Support Center at 800-421-3311.
 - Distribution Points:
 - Equipment – QuidelOrtho Sales Company, Rochester, NY
 - Consumables – QuidelOrtho Sales Company, Memphis, TN
- 22. List of Participating Dealers:** Not Applicable.
- 23. Preventative Maintenance:** Preventative maintenance checks will be performed in accordance with standard commercial practices and per manufacturer's recommended specifications.
- 24a. Special Attributes:** Not Applicable
- 24b. Section 508 Compliance:** Yes

25. **Contractor Information**
a. **UEI:** ZFXRG96JMJ39
b. **CAGE Code:** 12B04
c. **Tax Identification Number (TIN):** 99-2367518
26. **System for Award Management (SAM):** QuidelOrtho Sales Company, LLC is registered in SAM. Registration valid until 07/24/2026.
27. **Return Goods Policy:** For all Ortho products, a Certificate of Destruction will be issued. Upon receipt of this certificate, the customer shall destroy the products and return the signed Certificate of Destruction to QuidelOrtho. Once the signed Certificate is received, credit will be issued to the customer. This policy does not apply to capital equipment trade-in returns. To return Capital Equipment you must contact your QuidelOrtho account manager.
28. **Extended Prior Agreements:** Existing agreements will be converted to contract terms, conditions, and pricing as stated in this executed agreement with the Government.
29. **Aging/High Use Equipment:** Under certain circumstances, QuidelOrtho Sales Company will review the need to trade-in equipment for new equipment, of the same or similar models, that is acquired using CPT or CPRR pricing. These circumstances could include aging equipment (in use a minimum of five years) and/or high use. Qualified QuidelOrtho representatives will make the final determination on the equipment status.
30. **Additional Training:** Additional training at the Rochester, NY Training Facility may be purchased as a separate line item based on the tables on page 54 (Clinical Chemistry and Immunoassay) and page 62 (MTS), or incorporated into the Cost Per Test/Cost Per Reportable Result Program as an incremental charge. During installation year, up to two-additional General Operators may be trained at the customer's site upon request, over a period not to exceed four-days during normal business weekday hours. One-General Operator per system per government fiscal year may be trained at the customer's site upon request over a period of no more than four-days during normal business weekday hours.
31. **Early Termination:** Customers may be charged restocking fees for Capital equipment. Fees paid by the Government will be in accordance with Clause 52.212-4 (l) and (m) and Clause AS3026. Restocking fees shall not exceed the prices below for the identified equipment.

Analyzer	Restocking Fee
VITROS® 350 Chemistry Systems	\$16,391
VITROS® ECiQ Systems	\$20,907
VITROS® 3600	\$40,141

VITROS® Clinical Chemistry Equipment

Catalog Number	Equipment	Description
	VITROS® 250 Refurbished Clinical Chemistry System 	VITROS® 350 Clinical Chemistry System 
6802153	VITROS® 350 Chemistry System	VITROS® 350 and VITROS® 250 Refurbished Chemistry System The VITROS® 350 and VITROS® 250 Refurbished Chemistry Systems are flexible systems that can function as a single routine and STAT analyzer, a dedicated system for STATs, or as a full-menu back up to a larger main VITROS® system. • Minimal sample requirements (5 –11 µL) are beneficial for pediatric and geriatric populations. • The use of disposable tips for each sample eliminates the chance for carryover. • Reagents are self-contained and do not require any reagent preparation steps. • Customized patient and laboratory reports are available for use in laboratories without a LIS, or as a backup when the LIS is down. • Supports multiple MicroSlide lots on-board at one time for better inventory control. • Up to 6-month calibration frequency for all assays provides enhanced labor optimization and cost containment. • Eliminates the need for water, plumbing and drains. • LIS interface is compatible with the current interfaces in use in your lab today.
6801759	VITROS® 250 Refurbished Chemistry System

VITROS® Clinical Chemistry Equipment

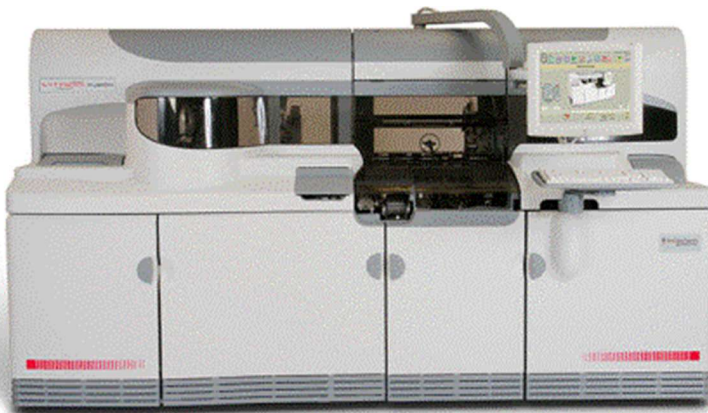

Catalog Number	Equipment	Description
VITROS® XT3400 Clinical Chemistry System 		
6844458	VITROS® XT3400 Chemistry System	The VITROS® XT 3400 Chemistry System brings Digital Chemistry™ to clinical chemistry. The system design is the result of experienced user input coupled with innovative digital technology to address some of the issues that laboratorians often experience. The VITROS XT 3400 is a great fit for many laboratories as a standalone system or along with a VITROS XT 7600 or other VITROS Instruments and can be connected to VITROS Automation Solutions. Key Features of the VITROS® XT 3400 Chemistry System include: • a simple to use graphical user interface that is standardized across our family of analyzers • disposable tip metering • up to 6-month calibration stability • parallel processing of routine and special tests for uncompromised workflow • reduced reagent handling • improved throughput • 97 reagent positions • onboard capacity of 89 MicroSlide cartridges with up to 10,680 clinical chemistry tests • market leading First Pass Yield of 96.5% The VITROS® XT3400 Chemistry System incorporates state-of-the-art features including MicroSlide/XT MicroSlide Technology, MicroSensor Technology, Intellicheck™ Technology and e-Connectivity® Interactive System Management. In addition, the VITROS® XT 3400 Chemistry System covers 90% of a typical lab's menu requirements and 99% of testing volume.
	Other Accessories- NOT INCLUDED	
6803935	UPS (Powerware) - (9135/6 kVA)	
2142380030	17mm Tubes Adaptor	
6844456	VITROS AT Access Kit	
6844455	VITROS XT3400 VersaTip tray	
6844459	MicroTips (1 box 256)(XT3400)	
6844496	XT3400 Seismic Anchor Kit	
6844498	Barcode Scanner Holster	

		Uninterruptible Power Supply (UPS) is not included in the CPT and must be ordered using catalog number as listed

VITROS® Clinical Chemistry Equipment

Catalog Number	Equipment	Description
VITROS® 4600 Chemistry System 		
6802445	VITROS® 4600 Chemistry System	The VITROS 4600 is a diagnostic testing system that offers a comprehensive chemistry menu for routine and specialty testing. It has a maximum theoretical throughput of 845 tests per hour and can handle various sample types. The system is self-contained and like all our waterless VITROS systems does not require plumbing. Key features of the VITROS® 4600 Chemistry System include an intuitive, easy-to-use graphical user interface that is standardized across our family of analyzers; disposable tip metering; up to 6-month calibration stability; parallel processing of routine and special tests for uncompromised workflow; reduced maintenance requirements, adjustable thresholds for onboard inventory management and calibration expiration. The VITROS® 4600 Chemistry System also incorporates state-of-the-art features including MicroSlide Technology, MicroTip Technology, MicroSensor Technology, Intellicheck™ Technology and e-Connectivity® Interactive System Management. In addition, the VITROS® 4600 Chemistry System provides a comprehensive chemistry menu including therapeutic drugs, special proteins, and DAT/Toxicology. Uninterruptible Power Supply (UPS) is not included in the CPT and must be ordered using catalog number as listed.
6802069	Other Accessories: UPS	

VITROS® Integrated Equipment (Clinical Chemistry & Immunodiagnostic)

Catalog Number	Equipment	Description
VITROS® 5600 Integrated System 		
6802413	VITROS® 5600 Integrated System	VITROS® 5600 Integrated System
6803935	Other Accessories: UPS	An innovative approach to integrating chemistry and immunoassay testing based on a data driven approach of integration by design. As a result the VITROS® 5600 helps to address the unprecedented challenges of the hospital clinical laboratory by offering an integrated system that is first of its kind to consolidate and simplify testing. The system features proven VITROS® technologies a sample centric approach to integrating sample processing and brings together a broad menu of immunoassay and chemistry testing on one standardized easy to use platform. Uninterruptible Power Supply (UPS) is not included in the CPT and must be ordered using catalog number as listed. The VITROS® 5600 offers the following: • 150 reagent positions, allowing for over 100 chemistry, immunoassay or infectious disease assays to be on board at one time • Greater efficiency by integrating our 5 proven proprietary technologies (MicroSlide™, MicroTip™, MicroWell™, Intellicheck™ and MicroSensor™) • Optimize turnaround time and productivity • Provide high reportable result efficiency that improves labor effectiveness and lower costs • Verify system processing and result reporting while reducing errors The result is a “one-tube-in, one-tube-out” workflow that minimizes staff interventions, takes up less space and helps contain costs.

VITROS® Integrated Equipment (Clinical Chemistry & Immunodiagnostic)

Catalog Number	Equipment	Description
VITROS® XT 7600 Integrated System 		
6844461	VITROS® XT 7600 Integrated System	VITROS® XT 7600 Integrated System
6803935	Other Accessories: UPS	The industry's first integrated chemistry and immunoassay system to utilize XT Digital Chemistry Technology. The system features proven VITROS® technologies, brings together a broad menu of immunoassay and chemistry testing on one standardized easy to use platform, and the flexibility to improve laboratory throughput without adding instrumentation through the use of XT Microslides. The VITROS® XT 7600 offers the following: • Increases chemistry test throughput, reduces cartridge loading and inventory space, and further increases quality with the first DIGITAL CHEMISTRY imaging system and XT Microslides. • Increase capacity with 150 reagent positions that allow over 100 assays to be on-board at once • Provide greater efficiency, lower maintenance and minimal calibration by integrating our proven MicroSlide, XT Microslide, MicroTip, MicroWell, Intellicheck, and MicroSensor technologies • Optimize turnaround time and productivity through innovative Sample Centered processing • Provide high reportable result efficiency that improves labor effectiveness and cuts costs • Verify system processing and result reporting while reducing errors • Deliver more of what you need most—quality, improved productivity and ease of use.

		• The result is a “one-tube-in, one-tube-out” workflow that minimizes staff interventions, takes up less space and helps contain costs.

VITROS® Immunodiagnostic Equipment

Catalog Number	Equipment	Description
	VITROS® ECi Refurbished Immunodiagnostic System 	VITROS® ECiQ Immunodiagnostic System 
1922814	VITROS® ECiQ Immunodiagnostic System	The VITROS® ECiQ Immunodiagnostic System design and intelligent software control come together to maximize assay performance for predictive diagnostics and disease state management. Its open architecture enables consolidation and the rapid addition of high value assays. Uninterruptible Power Supply (UPS) is not included in the CPT and must be ordered using catalog number as listed. Key system features include: - Enhanced Chemiluminescence detection system delivers enhanced signal and yields greater precision, sensitivity, and wider dynamic ranges than systems using EIA or non-enhanced chemiluminescence. - Patient samples (10-80 μL) preserved in the event of a clot; disposable tips eliminate the chance of carryover; sample trays accommodate multiple tube sizes without the need for special adapters. - On-board refrigeration means no reagent waste. 56-day reagent life and up to 28-day curve stability. This allows the VITROS® ECiQ System to serve a broad range of customer needs, from rural hospitals to large core laboratories and reference laboratories. - Reagents are self-contained and self-loading. The menu is complementary to the general chemistry menu. - The VITROS® ECiQ System with Intellicheck® has enhanced sample and reagent integrity monitoring that helps provide the right answer. - The continuous random access and STAT processing along with unique hardware and software control yield optimal incubation timing by assay. - Random access hepatitis and Anti-HIV-1/HIV-2 assays deliver cost savings and improved productivity.
6801059	VITROS® ECi Refurbished Immunodiagnostic System	
6801358	Other Accessories UPS	

		The VITROS® ECiQ System excels in applications other systems find challenging. This is accomplished by eliminating carryover, standardizing reagent packaging and handling, and the performance of enhanced chemiluminescence.

VITROS® Immunodiagnostic Equipment

Catalog Number	Equipment	Description
VITROS® 3600 Immunodiagnostic System 		
6802783	VITROS® 3600 Immunodiagnostic System	VITROS® 3600 Immunodiagnostic System
6803935	Other Accessories: UPS	A high-capacity analyzer that provides laboratories with a truly innovative solution to address their capacity, labor and cost challenges. The VITROS® 3600 delivers high-quality and dependable results by offering a broad and comprehensive immunoassay menu based on world-class VITROS® technologies. Uninterruptible Power Supply (UPS) is not included in the CPT and must be ordered using catalog number as listed. The VITROS® 3600 offers the following: • 47 reagent positions • Consistently produces highly-accurate test results by integrating 3 proven proprietary technologies (MicroWell™, MicroSensor™, and Intellicheck™) • Easily integrates with enGen™ Laboratory Automation System and other VITROS® systems. • Does not have any water or drainage requirements, minimizing waste and allowing flexibility in instrument location.

Blood Bank Testing Products and Instruments
Featuring ID-Micro Typing System™ (“ID-MTS”) Gel Test™

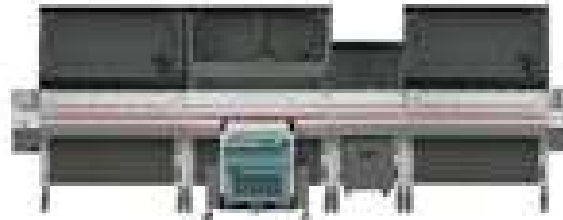

Catalog Number	Equipment	Description
ORTHO VISION™ Analyzer  The image shows the Ortho Vision Analyzer, a laboratory instrument with a grey and red design. It features a large transparent front door and a monitor on the right side. The brand name 'ORTHO VISION' is visible on the front panel.		
6904577	ORTHO VISION™ Analyzer	ORTHO VISION™ Analyzer is an instrument designed to automate in vitro immunohematology testing of human blood utilizing ID-MTS™ gel card technology. ORTHO VISION™ Analyzer automates test processing functions including liquid pipetting, reagent handling, incubation, centrifugation, reaction grading and interpretation, and data management requirements using cards and digital image processing. ORTHO VISION™ Analyzer can be used as a standalone instrument or interfaced to the customer's Laboratory Information System (LIS).

6986685	ORTHO VISION™ Table ORTHO VISION™ Lexmark Printer	

Blood Bank Testing Products and Instruments

Featuring ID-Micro Typing System™ (“ID-MTS”) Gel Test™

Catalog Number	Equipment	Description
ORTHO™ Workstation 		
6904630 6904630T	ORTHO™ Workstation ORTHO™ Workstation Kit with ID-TipMaster Pipettor	The ORTHO™ Workstation is a semi-automated and integrated 2-in-1 compact system designed for smaller laboratories or as a backup system for automated laboratories. This scalable solution offers standardization not only throughout your entire system, but within each laboratory by utilizing the same proven ID-MTS™ Gel.
MTS9640	Other Accessories:	
MTS9650	ID Tipmaster Pipettor	
MTS9610	MTS Work Table (24 cards)	
MTS9612	MTS Dispenser (0.5ml) MTS Dispenser (1.0ml)	

Laboratory Automation Equipment

The enGen™ is a customizable system that is configurable with VITROS® Chemistry and Immunodiagnostics systems to streamline, standardize, and automate laboratory workflow. Please contact QuidelOrtho with inquiries regarding enGen.

enGen™ Automation

In order to determine the per-test add-on amount, the lab must work with the appropriate QuidelOrtho representative to determine which enGen™ components and services will be required to achieve laboratory automation. Once determined the total cost of the components will be calculated based on pricing included in Table F - the Clinical Laboratory Accessories price list. This cost will be incorporated into the accessory portion of the capital add-on.

SECTION 3: PRICING

SIN: 605-1a

Included in this section is CPT and CPT and CPT pricing by piece of Capital equipment. Pricing includes 0.5% for IFF and 1.75% for freight and handling.

1. VENDOR NAME: QuidelOrtho Sales Company, LLC
2. ANALYZER TYPE: Chemistry
3. BRAND NAME: VITROS® 250® R Chemistry System (refurbished)
4. MODEL NUMBER (include option number): 6801759
- *5. PREVENTIVE MAINTENANCE SCHEDULE:
(a) Frequency of contractor P.M. visits One (1) per year.
(b) Number of standards/controls/calibrations/tests required to verify system performance after maintenance: Field Engineer performs ~ five (5) assays with 30 tests per assay precision test. Then customer runs controls against all assays and two (2) levels of controls for accuracy.
- *6. CALIBRATION/STANDARDIZATION SCHEDULE:
(a) Frequency of operator calibration/standardization Every six (6) months for MicroSlide.
(b) Number of standards/controls/calibration/tests required to verify system performance during standardization and/or calibration: Up to three (3) calibrator and two (2) control levels
- *7. INCREMENTAL ANALYZER OPTION AVAILABILITY (Analyzer added to Primary Analyzer Table when Additional Analyzer is needed) ☒ Yes ☐ No
- *8. COMPUTER INTERFACE AVAILABILITY ☒ Yes ☐ No
(a) Standard or Optional Equipment Configuration ☒ Std ☐ Opt
(b) Interface VA's VISTA computer system ☒ Yes ☐ No
(c) An RS 232, interface and software is provided with the analyzer compatible with the A.S.T.M. HL-7 Standard and the VA's VISTA computer system ☐ Yes ☒ No
- *9. BARCODE OR OCR READER AVAILABILITY:
Standard No
Optional Yes
Optional Character Reader Availability: Standard No
Optional No

TECHNICAL DATA SHEET (CONTINUED)

- *10. List any special configuration or installation requirements related to the system operation, including specified environmental requirements (operating temperature, humidity, etc.).

See Site Specification Manual.

- *11. List any accessories/options available for the system

Patient Sample Identification (PSID), Uninterruptible Power Supply (UPS)

- *12. List any geographic restrictions to be placed on delivery of supplies or maintenance service (see Statement of Work for the Government's requirements)

None.

- *13. List the VAMC facilities outside the continental United States that will be supported in your offer (1) Ponce, Puerto Rico, (2) Mayaguez, Puerto Rico, (3) San Juan, Puerto Rico, (4) Anchorage, Alaska, and (5) Honolulu, Hawaii.

All five listed facilities are supported.

- *14. List the times that technical service representatives will be available by phone to assist Government personnel (once the system is installed at the Government site)

Customer Technical Support Hotline Service is accessible via telephone 24 hours per day, seven (7) days per week.

Technical Data Sheet - VITROS® 350

CLINICAL LABORATORY ANALYZER GROUP

A. General questions to be completed by all offerors:

1. VENDOR NAME: QuidelOrtho Sales Company, LLC
2. ANALYZER TYPE: Chemistry
3. BRAND NAME: VITROS® 350
4. MODEL NUMBER (include option number): 6802153
- *5. PREVENTIVE MAINTENANCE SCHEDULE:
- (a) Frequency of contractor P.M. visits One (1) per year.
- (b) Number of standards/controls/calibrations/tests required to verify system performance after maintenance: Field Engineer performs ~ five (5) assays with 30 tests per assay precision test. Then customer runs controls against all assays and two (2) levels of controls for accuracy.

Optional <u> </u>	

Optional Character Reader Availability:

Standard <u>X</u>	
Optional <u> </u>	

TECHNICAL DATA SHEET (CONTINUED)

- *10. List any special configuration or installation requirements related to the system operation, including specified environmental requirements (operating temperature, humidity, etc.).

Operating temperature: 15°-30°C/59°-86°F

Ambient relative humidity: 15%-75% RH

Altitude: up to 2,439 m/8,000 feet

Plumbing: No water or drain required; self-contained onboard waste management eliminates special requirements for off-board plumbing

- *11. List any accessories/options available for the system

Uninterruptible Power Supply (UPS), seismic anchors, heat plenum

- *12. List any geographic restrictions to be placed on delivery of supplies or maintenance service (see Statement of Work for the Government's requirements)

None.

- *13. List the VAMC facilities outside the continental United States that will be supported in your offer (1) Ponce, Puerto Rico, (2) Mayaguez, Puerto Rico, (3) San Juan, Puerto Rico, (4) Anchorage, Alaska, and (5) Honolulu, Hawaii.

All five listed facilities are supported.

- *14. List the times that technical service representatives will be available by phone to assist Government personnel (once the system is installed at the Government site)

The Technical Solutions Center is available 24 hours a day, 7 days a week.

Technical Data Sheet - VITROS® 4600

CLINICAL LABORATORY ANALYZER GROUP

A. General questions to be completed by all offerors:

1. VENDOR NAME: QuidelOrtho Sales Company, LLC
2. ANALYZER TYPE: Clinical Chemistry
3. BRAND NAME: VITROS® 4600
4. MODEL NUMBER (include option number): 6802445
- *5. PREVENTIVE MAINTENANCE SCHEDULE:
(a) Frequency of contractor P.M. visits One (1) per year.
(b) Number of standards/controls/calibrations/tests required to verify system performance after maintenance: For MicroSlide Assays: Field Engineer performs ~5 assays with 30 tests per assay precision test. Then customer runs controls against all assays and 2 levels of controls for accuracy. For MicroTip assays: TBD.
- *6. CALIBRATION/STANDARDIZATION SCHEDULE:
(a) Frequency of operator calibration/standardization MicroSlide & MicroTip – six (6) months except for caffeine which is seven (7) days and %A1c which is 28 days.
(b) Number of standards/controls/calibration/tests required to verify system performance during standardization and/or calibration: For MicroSlide: Three (3) calibrator & two (2) control levels per test; for MicroTip: TBD.
- *7. INCREMENTAL ANALYZER OPTION AVAILABILITY (Analyzer added to Primary Analyzer Table when Additional Analyzer is needed) ☒ Yes ☐ No
- *8. COMPUTER INTERFACE AVAILABILITY ☒ Yes ☐ No
(a) Standard or Optional Equipment Configuration ☒ Std ☐ Opt
(b) Interface VA's VISTA computer system ☒ Yes ☐ No
(c) An RS 232, interface and software is provided with the analyzer compatible with the A.S.T.M. HL-7 Standard and the VA's VISTA computer system ☒ Yes ☐ No
- *9. BARCODE OR OCR READER AVAILABILITY: Standard Yes
Optional No
Optional Character Reader Availability: Standard No
Optional No

TECHNICAL DATA SHEET (CONTINUED)

- *10. List any special configuration or installation requirements related to the system operation, including specified environmental requirements (operating temperature, humidity, etc.).

Specific electrical requirements include: (a) Dedicated 20 ampere, nominal 200-240 V and (b) Line Frequency: 47-63 Hz.
See Site Specification Manual.

- *11. List any accessories/options available for the system

Uninterruptible Power Supply (UPS).

- *12. List any geographic restrictions to be placed on delivery of supplies or maintenance service (see Statement of Work for the Government's requirements)

None.

TECHNICAL DATA SHEET (CONTINUED)

- *10. List any special configuration or installation requirements related to the system operation, including specified environmental requirements (operating temperature, humidity, etc.).

Do not place in direct sunlight. Install in a climate controlled laboratory. Maximum altitude for installation is 8000 feet. Temperature range is between 18 and 30 degrees Celcius, and between 15% and 85% relative humidity noncondensing. Power requirements include One dedicated (3-wired single phase; line-neutral and single circuit) AC power line for connection to facility power. Input Voltage 100 - 240 V AC 50/60 Hz 1000 VA

- *11. List any accessories/options available for the system

Optional Table, Printer, Drain Kit, Seismic Anchor Kit

- *12. List any geographic restrictions to be placed on delivery of supplies or maintenance service (see Statement of Work for the Government's requirements)

None

- *13. List the VAMC facilities outside the continental United States that will be supported in your offer (1) Ponce, Puerto Rico, (2) Mayaguez, Puerto Rico, (3) San Juan, Puerto Rico, (4) Anchorage, Alaska, and (5) Honolulu, Hawaii.

All five (5) listed facilities are supported.

- *14. List the times that technical service representatives will be available by phone to assist Government personnel (once the system is installed at the Government site)

Customer Technical Support Hotline Service is accessible via telephone 24 hours per day, seven (7) days per week.

Technical Data Sheet - ORTHO™ Workstation

A. General questions to be completed by all offerors:

1. VENDOR NAME: QuidelOrtho Sales Company, LLC
2. ANALYZER TYPE: Blood Bank
3. BRAND NAME: ORTHO™ Workstation
4. MODEL NUMBER (include option number): 6904630, 690463B, 6904630T
- *5. PREVENTIVE MAINTENANCE SCHEDULE:
 - (a) Frequency of contractor P.M. visits N/A
 - (b) Number of standards/controls/calibrations/tests required to verify system performance after maintenance: N/A
- *6. CALIBRATION/STANDARDIZATION SCHEDULE:
 - (a) Frequency of operator calibration/standardization Quarterly for the centrifuge and annually for the pipettor.
 - (b) Number of standards/controls/calibration/tests required to verify system performance during standardization and/or calibration: None
- *7. INCREMENTAL ANALYZER OPTION AVAILABILITY
(Analyzer added to Primary Analyzer Table when Additional Analyzer is needed) ☒ Yes ☐ No
- *8. COMPUTER INTERFACE AVAILABILITY ☐ Yes ☒ No
 - (a) Standard or Optional Equipment Configuration ☒ Std ☐ Opt
 - (b) Interface VA's VISTA computer system ☐ Yes ☒ No
 - (c) An RS 232, interface and software is provided with the analyzer compatible with the A.S.T.M. HL-7 Standard and the VA's VISTA computer system ☐ Yes ☒ No
- *9. BARCODE OR OCR READER AVAILABILITY:
