Attachment #1

All American Healthcare Services Inc. Job Descriptions/Minimum Qualifications

Job Title	Detailed position Description and functional responsibilities	Min Years of Experience	Min Years of Education	Any Applicable Training
Registered Nurse	<p>Registered Nurse responsible for the review of medical necessity admissions and continuous hospital stays for hospital and insurance settings. Duties include extensive chart review and auditing using acceptable standards of criteria. Experience with criteria sets and application to practice. Fast paced environment. Excellent communication skills with client and medical interdisciplinary team in a medical facility setting, nurses must monitor their patients' conditions closely. Patients are either ill people of all ages, children, elderly, disabled or mentally handicapped. Communicating with other nurses and aides is necessary to obtain information. Registered Nurses must document all information accurately and promptly. This data is then used to formulate a care plan for each patient. Care plans include medical and personal history, medications and all physical, emotional and spiritual needs. In order to meet these needs, the RN must formulate programs for nurse aides and activity aides to perform with the patient.</p>	2	Bachelors in Science	Registered Nurse licensed 2 to 4 years Continuing Educational Classes

Occupational Therapist	<p>Occupational Therapists lead the process in development, implementation, and coordination of the occupational therapy program. Screening, evaluation, educational program and transition planning, therapeutic intervention, and exit planning is provided for students identified with or suspected of having disabilities that interfere with their ability to perform daily life activities or participate in necessary or desired occupations. Professional judgment and clinical knowledge are used to develop individualized programming based on occupational performance deficits in the areas of personal care, student role, interaction skills, process skills, play, community integration/work, and graphic communication. Occupational therapist regularly collaborates with other disciplines and services at departmental and system levels. Occupational therapist is expected to independently review outcomes and modify intervention programs. Clinical reasoning and professional judgment are essential to ensuring the safety of students and protecting liability of the school system and the therapist. Errors may result in serious harm to the students.</p>	2	Masters in Science	Occupational Therapy Licensed 2 to 4 years Continuing Educational Classes
