Smart System™ Limited Warranty

Limited Warranty

The term “Smart System Product” is limited to the VACFS software, hardware components, and required firmware. The term “Smart System Product” DOES NOT include any non-M&S products or non-M&S branded peripherals. (Manufacturers and suppliers, or publishers of the non-M&S items may provide their own warranties directly.)

M&S guarantees that the M&S Smart System Products that you have purchased from M&S are merchantable, fit for use for the particular purpose prescribed for the product, free from defects in materials or workmanship under normal use during the Limited Warranty Period. The Limited Warranty Period starts on the date of installation of the product. You are entitled to warranty service according to the terms and conditions of this document if a repair to your Smart System Product is required within the Limited Warranty Period.

During the Limited Warranty Period (one year from the date of product installation), M&S will, at its discretion, replace any defective component. All component parts or hardware products removed under this Limited Warranty become the property of M&S.

This is your exclusive remedy for defective products.

It is mandatory that the unit serial number be made available when requesting a warranty service event. Failure to do so may result in the event being deemed out of warranty by M&S and therefore chargeable to the requester.

M&S will replace Smart System Products (a) with new or previously used products or parts equivalent to new in performance and reliability, or (b) with equivalent products to an original product that has been discontinued. Replacement parts are warranted to be free from defects in material or workmanship for ninety (90) days or, for the remainder of the Limited Warranty Period of the M&S Smart System Product they are replacing or in which they are installed, whichever is longer.

Exclusions

M&S does not guarantee that the operation of this product will be uninterrupted or error-free. M&S is not responsible for damage that occurs as a result of your failure to follow the instructions intended for the M&S Smart System product.

Limitation of Liability

Except as otherwise provided by an express or implied warranty, the M&S will not be liable for consequential damages resulting from any defect or deficiencies in accepted items.

In no event will M&S be liable for any damages caused by the product or the failure of the product to perform, including any lost profits or savings, business interruption, loss of use or any other commercial or economic loss of any kind, or special, incremental, or consequential damages. M&S is not liable for any claim made by a third party or made by you for the third party. This limitation of liability applies whether damages are sought, or a claim made, under this limited warranty or as a tort claim (including negligence and strict product liability), a contract claim or any other claim. This limitation in liability cannot be waived or amended by

any person. This limitation of liability will be effective even if you have advised M&S, or an authorized representative of M&S, of the possibility of any such damages or even if such possibility were reasonably foreseeable.

Customer Responsibilities

To enable M&S to provide the best possible support and service during the Limited Warranty Period, you will be required to maintain a proper and adequate environment, and use the smart System Product in accordance with the instructions furnished.

Warranty Service

Under the terms of this limited warranty, M&S will ship a replacement unit directly to you if the M&S Smart System Product you purchased is diagnosed as defective.

M&S will either authorize its preferred carrier (currently, FedEx) to pick up the defective unit from your location OR will send a return label with the replacement.

On receiving the replacement unit, you will be required to return the defective unit back to M&S, in the packaging that arrives with the replacement unit, within a defined period of time, (10) days. M&S will incur all shipping and insurance costs to return the defective unit to M&S. Failure to return the defective unit may result in M&S billing you for the replacement unit.

On-Site Warranty Service

Your M&S Limited Warranty does not include an on-site warranty service.

Spare Parts

All M&S spare parts that are used to replace defective parts in an M&S product are entitled to:

- the remaining service period of the product in which it is installed; or
- 90 days parts replacement warranty, whichever is greater.

Software Limited Warranty

Refer to the 'M&S Technologies End User Software License Agreement'.
