Cardiovascular Technologist

- Description** Uses cardiovascular technology evaluation procedures, such as electrocardiography (ECG), Holter monitoring, cardiac ultrasound and echocardiography, exercise stress testing, and pacemaker evaluation to observe, monitor and evaluate cardiac function.
- Education** Associate's Degree in cardiovascular technology.
- Experience** Two years experience performing cardiovascular tests in a supervised setting.
- References** Positive reference verification.
- Certifications** Current CPR certification.

621-050

Computed Tomography (CT) Technologist

- Description** Produces images of parts of the human body for use in diagnosing and monitoring medical problems. Works effectively in both inpatient and outpatient settings, maintains a collaborative

	relationship with patients, family members, physicians and coworkers.
Education	Graduation from an accredited radiography program and either current ARRT registration, state licensure or eligible for certification testing
Experience	One year performing CT Scans on a full-time basis in the last three years, or eligibility for ARRT Advanced Clinical Certification testing.
References	Excellent supervisory and professional references.
Certifications	Current CPR certification.

621-050	MRI Technologist
Description	Follows established procedures and guidelines while performing a wide variety of Magnetic Resonance Imaging examinations; produces high quality diagnostic images on patients of all age groups.
Education	Completion of American Registry of Radiologic Technologist (ARRT); certificate in Magnetic Resonance Imaging preferred
Experience	One year full-time experience within the last year; or ARRT-MR certification
References	Two positive qualitative references
Certifications	Current CPR certification.

621-050	Mammographer
Description	Perform specialized examinations of the breast to help in the diagnosis and treatment of breast disease in female patients; Mammographer may perform screening exams or diagnostic exams on the patients.
Education	ARRT-M certified
Experience	One year experience as Radiology technologist and successful registration as Mammographer.
References	Two positive qualitative references
Certifications	Current CPR certification.

621-050	Nuclear Medicine Technologist
Description	Administer radiopharmaceuticals to patients to be used in diagnosis and treatment of diseases of patients requiring specific diagnostic testing to diagnose or treat their disease. Operates cameras that detect and read the radioactive drug in the patient's body to create an image on photographic film or a computer monitor. Works in the Radiology Department.

Education	Certificate programs offered in hospitals; Associate's degree in community colleges; Bachelor program in colleges and universities. Courses must include: physical science, the biological effects of radiation exposure, radiation protections, and procedures, the use of radiopharmaceuticals, imaging techniques and computer applications. Must meet the minimum Federal standards on the administration of radioactive drugs and the operation of radiation detection equipment.
Experience	One year full-time experience/employment within the last three years.
References	Two positive qualitative references.
Certifications	Current CPR certification.

621-050

Radiation Therapist/RRT

Description	Produces radiographs of parts of the human body for use in diagnosing and monitoring medical problems. Works effectively in both inpatient and outpatient settings, maintaining a collaborative relationship with patients, family members, physicians and coworkers.
Education	Graduation from an accredited radiography program and either current ARRT registration, state licensure or eligible for certification testing.
Experience	At least one year of current clinical experience.
References	Excellent supervisory and professional references.
Certifications	Current CPR certification.

621-050

Diagnostic Imaging/Radiographer/X-Ray

Description	Produces radiographs of parts of the human body for use in diagnosing and monitoring medical problems. Works effectively in both inpatient and outpatient settings, maintaining a collaborative relationship with patients, family members, physicians and coworkers.
Education	Graduation from an accredited radiography program and either current ARRT registration, state licensure or eligible for certification testing.
Experience	At least one year of current clinical experience.
References	Excellent supervisory and professional references.
Certifications	Current CPR certification.

621-050	Sonography/Ultrasound
Description	Cardiac Echo Technologist/sonographers are technologists who use ultrasound instrumentation to examine the heart chambers, valves, and vessels and to create images. Cardiac technologists may administer medication to a physically active patient. Cardiac sonographers may also assist physicians who perform transesophageal echocardiography, which involves placing a tube in the patient's esophagus to obtain ultrasound images.
Education	Two to four year junior or community college program; on the job education/experience.
621-053	Registered Nurse (Anesthetist)
Description	Practice of safe and ethical nursing care within the scope of his/her profession as defined by the state Nursing Practice Act, understanding his/her own limitations, seeking advice and assistance when necessary.
Education	Graduation from an accredited School of Nursing. Current RN license.
Experience	At least one year of current clinical experience.
References	Excellent supervisory and professional references.
Certifications	Current CPR certification and ACLS certification as required by client.
621-054	Registered Nurse (Nurse Practitioner)
Description	Practice of safe and ethical nursing care within the scope of his/her profession as defined by the state Nursing Practice Act, understanding his/her own limitations, seeking advice and assistance when necessary.
Education	Graduation from an accredited School of Nursing. Current RN license.
Experience	At least one year of current clinical experience.
References	Excellent supervisory and professional references.
Certifications	Current CPR certification and ACLS certification as required by client.
