V797P-4389A

**TERMS AND CONDITIONS APPLICABLE TO LEASING OFFERED BY
PENTAX OF AMERICA UNDER FEDERAL SUPPLY SCHEDULE CONTRACT NO. V797P-4389A**

1. STATEMENT:

All agencies issuing Delivery Orders under these terms and conditions understand that this is an operating lease arrangement.

Contractor may request information from the Government to establish and document the essential use of the contract items being leased. Such information would include, but is not limited to, a description of the planned life cycle of the items and the applicable Government program. Each Lease transaction hereunder shall be initiated by a Delivery Order, which shall specify the terms of the transaction. Delivery Orders that conflict with these Mandatory General Terms will not be accepted by Contractor and will be returned to the ordering agency within five (5) days of receipt of the order.

2. SCOPE:

Contractor will lease Products to all Federal agencies and other entities authorized to place orders under FSS Contract number V797P-4389A, all of which are hereinafter collectively referred to as the "Government."

These Leasing terms and conditions are offered under which the Government may lease medical scopes, related equipment and accessories (collectively referred to as "Products") from Contractor. Products will include all items and associated set up and installation services available to the Government under FSS Contract number V797P-4389A. The following Contractor-certified support services packages for the Products are also available to the Government: (a) Complete Care; (b) Managed Care; and, (c) Select Care. The associated terms and conditions for each support service package are included as Appendix C. The Government may elect instead to utilize third-party support for the Products, but the use of third-party support and/or repair parts shall void any Contractor warranty purchased with the Products.

3. LICENSED MATERIALS:

To the extent permitted by FAR 52.227-19 neither these terms and conditions nor any Delivery Order presented pursuant to these terms and conditions grants any right, title or interest in any "stand-alone" optional Contractor or third-party Software Product. Any rights that Government may have with respect to such stand-alone Software Product shall arise only pursuant to license agreements between Government and the Licensor(s) of such Licensed Materials (collectively, the "Licensors") which license agreements (the "Licenses") may be contained within the packaging associated with the Software Products. In the event of any conflict between this Section and the provisions of FAR 52.227-19, the terms of the FAR clause shall prevail. For purposes of clarity, with respect to any software that is embedded or resident on the Contractor's standard Products and is not "separately purchased" on an optional basis, the Contractor owns the software but the Customer shall have full rights to use such software and any associated documentation to facilitate proper use and operation of the Products (including the rights to any available upgrades, fixes, etc. to such software, to the extent available under warranty or other maintenance contract purchased by the Customer).

V797P-4389A

4. FAIR MARKET VALUE DEFINITION:

Fair Market Value shall be determined by Contractor on the basis of, and shall be the value, which would be obtained in an arm's length transaction between an informed and willing buyer and an informed and willing seller under no compulsion by either party to perform the transaction. After receiving an End of Lease notice from Contractor stating the Fair Market Value, the Government may nevertheless advise Contractor of the Government's disagreement with any Fair Market Value provided by Contractor. Examples of information that could be provided by the Government to support its position would be reasonable documentation of a similar transaction without benefit of predetermined residual positions or fair market value caps or a bona fide offer for similar equipment (i.e., similar make, model and configuration). Disagreements over Fair Market Value shall be resolved pursuant to FAR 52.233-1, Disputes.

5. TYPES OF LEASES AVAILABLE:

Contractor will provide Leases for Products contained on a single Lease Delivery Order that have an aggregate purchase price value greater than \$50,000. The following different types of Lease structures are available:

- Operating Leases with Fair Market Value purchase option.

6. ORDERING INFORMATION:

a. DELIVERY ORDERS. The Government's written Delivery Order shall be the only basis for Lease initiation in accordance with the provisions of this Contract. Each Delivery Order shall be referred to herein as "Lease" or "Delivery Order."

A Delivery Order must contain the following items:

- (1) **Reference to this FSS Contract number V797P-4389A and a commitment of funds for the Products for the current fiscal year.**
- (2) **Transaction specific information:**

- Product types, model/features or part numbers and descriptions
- Customer name and billing address
- Government Contact and Telephone Number regarding billing issues
- Installation location
- Lease Term (number of months)
- Purchase Price (price upon which lease rate is determined)
- Lease Rate (\$/1,000)
- Base Interest Rate
- Lease payment and payment frequency
- Type of Lease structure
- Estimated Lease Commencement Date

V797P-4389A

- (3) The Government agrees that early termination is highly unlikely because the acquisition, quantity and use of the involved Products are deemed to be essential to its operations. Further, the Government reasonably believes that funds in an amount sufficient to make all payments during the Term can be obtained and agrees to take reasonable positive action to obtain and maintain such funds.
- (4) The following Contractor-certified support services packages for the Products are available: (a) Complete Care; (b) Managed Care; and Select Care. The associated terms and conditions for each support service package are included as Appendix C. The Government may elect to utilize third-party support for the Products, but the use of third-party support and/or repair parts shall void any Contractor warranty purchased with the Products.

b. **ORDER TERM.** All Delivery Orders, upon issuance, shall be effective through the earlier of September 30 of the current fiscal year or, the Lease Expiration Date.

All Delivery Orders citing annually appropriated funds automatically terminate at the end of the Government's fiscal year; however, ordering offices are instructed to notify Contractor in writing one month prior to the expiration of the Delivery Order if the Products are to be terminated on that date. The Government recognizes that its failure to provide such notice of expiration may result in a Contractor claim for additional compensation. A renewal Delivery Order shall be issued for each succeeding fiscal year of the

original Delivery Order's lease term for all of the Products that were included on the original Delivery Order and will be funded for the entire fiscal year, unless the Lease Expiration Date occurs earlier.

c. **ACCEPTANCE – LEASE UNDER CONTRACTOR'S FSS CONTRACT.** Immediately upon delivery, the Government agrees to promptly inspect the Products. Upon satisfactory inspection, the Government agrees to execute an Acceptance Certificate in form and substance acceptable to the Contractor. The date of execution of the Acceptance Certificate shall be the Lease Commencement Date.

7. ASSIGNMENT BY THE GOVERNMENT:

Lease Delivery Orders are not assignable by the Government.

8. ASSIGNMENT BY THE CONTRACTOR:

FAR 52.232-23, Assignment of Claims with Alternate I (APR 1984) and GSAR 52.232-23, Assignment of Claims (SEP 1999), are incorporated by reference. No modifications will be issued by changing the name and/or address of the Assignee without the prior written consent of the Government.

9. DELIVERY AND INSTALLATION:

Products will be delivered by the Contractor as outlined in FSS Contract number V797P-4389A. Installation and Contractor-certified support services may be purchased or financed by the Government. Installation and Contractor-certified support prices and terms and conditions will be the prices and the terms and conditions of FSS Contract number V797P-4389A in effect at the time of the Delivery Order.

V797P-4389A

10. WARRANTIES:

- a. **WARRANTIES.** The Products shall bear the same warranties as outlined within this FSS Contract number V797P-4389A for purchased Products. This will include extended warranty service if ordered by the Government. The Contractor warrants that neither the Contractor nor anyone acting or claiming through the Contractor, by assignment or otherwise, will interfere with the Government's quiet enjoyment of the use of the Products so long as no event of default shall have occurred and be continuing.
- b. **CONTRACTOR LIABILITIES.** The Contractor's liabilities in an action for breach of warranty shall be limited by the warranty commitments in FSS Contract number V797P-4389A and these terms and conditions.

11. TERM:

Individual Leases contemplated hereunder may have Terms no less than 36 months, and no greater than 60 months. Within this range, the Term of the Lease shall be mutually agreed to between the Contractor and the Government.

A Lease for Products ordered by the Government under the provisions of these terms and conditions has a Commencement Date, a Term and an Expiration Date. The Term is the duration a Lease is in full effect, usually designated by a fixed number of months or years from the Commencement Date until a specific Expiration Date, assuming no early termination for any reason. The Commencement Date for Products is as defined in Section 6.c and the Term of the Lease shall be set forth on the Delivery Order. The Expiration Date is determined initially by adding the Term to the Commencement Date.

12. CHARGES AND INVOICES:

The Government agrees to pay the periodic Lease payments as quoted to the Government and as funded on the Delivery Order, which Lease payments shall be structured on a monthly payment basis unless otherwise agreed by the Government and the Contractor for a particular Lease Delivery Order. Periodic Lease payment obligations for all Products shall begin on the Lease Commencement Date. The periodic Lease payments for Products shall remain unchanged for the Term. Partial periodic Lease charges shall be prorated per calendar day at the rate of 1/30th of the equivalent monthly Lease payment (for example, an equivalent monthly Lease payment for a Lease with quarterly payments shall be calculated as the periodic Lease payment divided by 3).

The Contractor shall render invoices for periodic Lease payments at the end of the month for which the charges accrue. For Prompt Payment Act provisions, all invoices are due upon receipt of invoice, and are payable by the 30th of the month in accordance with the Prompt Payment Act provisions in FAR 52.232-25.

V797P-4389A

13. DISCONTINUANCE:

- a. The Government may not terminate a Lease Delivery Order under this Section in order to avoid its obligations or to obtain the same or similar Products or services at more favorable terms. The Government agrees that early termination is highly unlikely because the acquisition, quantity and use of the involved Products are deemed to be essential to its operations. Further, the Government reasonably believes that funds in an amount sufficient to make all payments during the Term can be obtained and will make best efforts to take reasonable positive action to obtain and maintain such funds. The Government may fail to renew the Delivery Order if and only if at the end of the base period or an option period if the Government no longer has a bona fide need for the Products or for functionally similar equipment performing substantially the same tasks or if there is a continuing need for the Products but adequate funds have not been made available in order to renew the Delivery Order. In either of these two non-renewal circumstances (no bona fide need for the Products or adequate funding is not available to renew the Delivery Order), and where proper advance notice has been given to Contractor by a Government lessee, neither Contractor (Pentax) nor the assignee of its right to payment under the applicable Lease Delivery Order shall be entitled to file any claim against the Government for early termination costs, including but not limited to the amounts reflected in Appendix B.
- b. **TERMINATION FOR CONVENIENCE.** Products may not be discontinued or Leases terminated by the Government during a fiscal year except by the Contracting Officer pursuant to the provisions of FAR 52.212-4(l), "Termination for the Government's Convenience." The Contracting Officer's Notice of Termination shall specify the type and serial numbers of the Products and the last date (day, month and year) of use. Such notice should also be provided for a discontinuance of a Lease when occurring at the end of the Term as provided for herein. In the event of a Termination for Convenience, the Contractor shall be paid an amount calculated in accordance with the Termination Schedules attached hereto as Appendix B. The termination payment amount is calculated by multiplying the designated factor (as specified in the attached Termination Schedules) by the monthly Lease Payment. The designated factor is determined based upon the number of payments made by the Government as of the effective date of the termination.
- c. **TERMINATION FOR NON-APPROPRIATION (END OF FISCAL YEAR).** The Government intends to pay periodic Lease payments for the full Lease Term and, if required, to request appropriation of funds for the Lease. If a non-appropriation of this kind occurs, the Government will promptly notify the Contractor, and the Lease for the Products will terminate at the end of the last fiscal year for which funds were appropriated. The Government recognizes that failure to provide prompt notice of non-appropriation may result in a Contractor claim for additional compensation.

14. RELOCATION AND RETURN OF PRODUCTS:

The Government may relocate Products to another location within the Government with prior written notice to Contractor, so long as periodic Lease payments continue to be made without interruption. No other transfer, including sublease, is permitted. The Government shall not assign, transfer or otherwise dispose of any Lease or Products, or Any interest therein, or create or suffer any levy, lien or encumbrance thereon except those created by Contractor.

V797P-4389A

Upon expiration or earlier termination of a Lease Delivery Order, the Government, at Contractor's expense (if the Government is not in default under the Lease Delivery Order), shall immediately return the Products, decontaminated, complete and in good working order and condition (normal wear and tear excepted) and properly crated, to such place within the continental United States as designated by the Contractor; provided, however, that if the Government is in default under a Lease Delivery Order, the Government shall bear all expenses related to return of the Products. Upon request by the Government, the Contractor shall provide reasonable assistance in the de-installation and packaging of the Products. (Certain Products may, to the extent consistent with Contractor's standard commercial practices, require de-installation by the Contractor at the Government's cost and expense as negotiated between the Contractor and the Government). The Government shall also pay to the Contractor such amounts as may be necessary to cover the replacement of all damaged, broken or missing Products, except those Product damaged by the Contractor during de-installation. The Government's payment obligations and all other provisions of the applicable Lease Delivery Order shall continue until all the Products are returned. The Contractor or its designated representative shall conduct a timely inspection of returned Products and, within thirty (30) days of return, shall assert a claim if the condition of the Products is worse than would reasonably be anticipated from normal wear and tear.

In the event the Government does not contract with the Contractor for hardware and software maintenance during the entire Lease Term, the Government shall be responsible for all costs associated with returning the Products to the manufacturer's then-current specifications for the Products, but exclusive of any optional upgrades, enhancements or improvements to the Products not included as part of the manufacturer's standard maintenance contract, such that the Products will be eligible for normal manufacturer's maintenance at the manufacturer's standard commercial prices. This includes, but is not limited to (i) the costs associated with removal and replacement of any third party components that may be installed in the Products during the Lease Term and (ii) the costs associated with any Product repair, replacement, modifications or updates that would have normally been included in the Contractor's maintenance contract. The Contractor or its designated representative shall conduct a timely inspection of returned Products and, within thirty (30) days of return, shall assert a claim if the Products have not be returned in accordance with this paragraph.

15. MODIFICATIONS:

A "Modification" is any hardware upgrade, feature, accessory or addition to the Products that is within the manufacturer's design, using parts from the manufacturer of a source approved by the manufacturer. Government may modify the Products upon prior written notice to Contractor. Government may obtain new Modifications from Contractor and must finance them through Contractor or pay cash; the Government shall not create or suffer to exist any lien or security interest that encumbers or conflicts with Contractor's ownership of the Products or any Modification thereto other than security interests or liens arising by or through Contractor or its assignee.

16. TAXES:

Notwithstanding the provisions of FAR 52.229-3, the monthly Lease charges and any early buyout or purchase option prices under a Lease exclude all State and Local taxes levied on or measured by the Contract or sales price of the Products furnished hereunder. The Contractor shall separately state on an invoice any taxes excluded from the Lease price, and the Government agrees to either pay the amount of such taxes to the Contractor or to provide evidence necessary to sustain an exemption.

V797P-4389A

17. END OF LEASE OPTIONS:

- a. Upon at least ninety (90) days written notice to Contractor prior to the expiration of the Lease Term, provided that on the date such notice is given and at all times until the Lease expiration date no default by Government under these terms and conditions has occurred and is continuing, Government may:
 - (1) Enter into a Lease renewal;
 - (2) Exercise an option to purchase the Products; or
 - (3) Return the Products in accordance with Section 14.
- b. **RENEWAL AT END OF LEASE TERM.** At the end of a Lease Term, the Government may renew a Lease using a renewal Delivery Order by giving Contractor ninety (90) days prior written notice. Contractor may renew a Lease one or more times, but fair market value Leases may not continue beyond five years from the initial Commencement Date. Unless otherwise agreed to by the Contractor the renewal shall be for all of the Products.
- c. **PURCHASE OF PRODUCTS.** At the end of a Lease Term, the Government may purchase Products by giving Contractor ninety (90) days prior written notice, provided that all Lease payments and any other amounts due have been paid. The Contractor will transfer good and marketable title to the leased Products to the Government, but the sale shall be "As Is, Where Is" and Contractor shall provide no warranty whatsoever, expressed or implied unless the Extended Warranty included in the Lease has not yet expired; in which case the Extended Warranty will continue until its term expires.

The Government's purchase price will be an amount equal to the Fair Market Value for any Products purchased. The Contractor will provide a purchase quotation upon request. Unless otherwise agreed to by the Contractor the purchase shall be for all of the Products.
- d. **EXTENSION.** After receiving the required End of Lease notice, if the Government does not elect to renew a Lease, purchase the Lease Products, or return the Lease Products; or if the Government elects to return the Products but does not do so in accordance with Section 14, the Government recognizes that the Contractor may assert a claim for additional compensation.

18. DEFAULT:

The Government shall be in default under a Lease upon the occurrence of any of the following events: (a) the Government fails to pay when due any amount required to be paid by the Government under the Lease and such failure shall continue for a period of thirty (30) days after the due date; or (b) the Government fails to perform any other provision under the Lease and such failure or breach shall continue unremedied for a period of thirty (30) days after written notice is received by the Government from Contractor.

The Government may terminate Lease Delivery Orders in accordance with FAR 52.212-4(m), Termination for Cause.

19. REMEDIES; CHOICE OF LAW AND FORUM:

Disputes relating to or arising under any Lease Delivery Order shall be resolved in accordance with FAR 52.233-1, Disputes. Lease Delivery Orders shall be construed in accordance with federal law.

V797P-4389A

20. RISK OF LOSS OR DAMAGE:

The Contractor shall be responsible for the risk of loss or damage to the Products during periods of manufacture, transportation and delivery up to the Lease Commencement Date. As of the Lease Commencement Date, the Government shall be responsible for risk of loss or damage to the Products except for (i) normal wear and tear and (ii) loss or damage caused by the negligence of the Contractor, its agents, subcontractors or employees. No loss or damage to the Products, except loss or damage reasonably attributable to the fault or negligence of the Contractor, shall impair any obligation of the Government to make lease payments when due and owing under the applicable Delivery Order. In the event of loss or damage with the exception of those events described above, the Government, at the Government's option, shall:

- Place the same in good repair, condition and working order to the satisfaction of Contractor within ninety (90) working days of such loss or damage; or
- Replace the same with similar property in good repair, condition and working order to the satisfaction of contractor within ninety (90) working days of such loss or damage.

21. GENERAL:

- a. **WRITTEN NOTICES OR DELIVERY ORDERS.** The date of receipt by the Contractor of any written notices or Delivery Orders shall be the date such notices or Delivery Orders are time-stamped in Contractor's office, or if sent by certified mail, the date indicated on the certified mail return receipt.
- b. **NO WAIVER.** Any failure of Contractor to request performance by the Government or any waiver by Contractor of any provision in these terms and conditions shall not be construed as a consent or waiver of any other breach of the same or another provision.
- c. **PERSONAL PROPERTY.** All Products leased hereunder are, and will remain personal property and will not become a fixture or realty.
- d. **SEVERABILITY.** If any Lease provision is found to be invalid, illegal or unenforceable, the validity, legality and enforceability of all remaining provisions shall not be impaired thereby.
- e. **SURVIVAL.** All Lease Delivery Orders and any renewals thereof shall be subject to these Terms and Conditions Applicable to Leasing and the terms and conditions of FSS Contract number V797P-4389A in effect on the date of the issuance of the initial Delivery Order. Termination, expiration or modification of FSS Contract number V797P-4389A shall in no way reduce or affect the Government's liability or obligations with respect to any Lease Delivery Order. Similarly, such a termination, expiration or modification of the FSS Contract shall in no way reduce or affect the Lessor's liability or obligations with respect to any Lease Delivery Order.
- f. **ORDER OF PRECEDENCE.** For Lease Delivery Orders, the order of precedence will be:
 - (1) These terms and Conditions for General Terms Applicable to Leasing.
 - (2) FSS Contract number V797P-4389A.

V797P-4389A

22. LEASE WITH FAIR MARKET VALUE PURCHASE OPTIONS:

a. TITLE AND RATES. For Leases with Fair Market Value End of Lease purchase options, title remains with Contractor for the entire Lease Term, and transfers to the Government if the buyout option is exercised either at Lease end or during the Term of the Lease.

b. TITLE ACQUISITION PRIOR TO THE END OF LEASE TERM/STIPULATED LOSS VALUE. In the event the Government desires, at any time, to purchase Products leased hereunder, the Government may make a one-time lump sum payment. For Fair Market Value purchase options, the buyout amount shall be the present value of the remaining Lease payments, using as the discount rate, the Treasury Constant Maturities as published by the Federal Reserve statistical release H.15 (519) on the date of the issuance of the original Delivery Order for the term closest to the length of the Lease Term, plus the Fair Market Value of the Products. Sixty (60) days prior written notice will be required to calculate the buyout amount.

23. MONTHLY PAYMENTS:

The Monthly Payment shall be calculated by multiplying the net purchase price of the Products as determined from the Contractor's FSS Contract by the factors listed below.

Schedule of Lease Rate Factors

Lease Term	Transaction Size	Lease Rate Factor
36 Month*	Under \$250,000	.02906
	\$250,001 to \$500,000	.02879
	Over \$500,000	.02853
48 Month	Under \$250,000	.02377
	\$250,001 to \$500,000	.02352
	Over \$500,000	.02326
60 Month	Under \$250,000	.02020
	\$250,001 to \$500,000	.01994
	Over \$500,000	.01969

*A promotional rate of 0% is available for 36 Month lease orders through December 31, 2011. Lease Payments for this 0% option are calculated by dividing the net purchase price by 36.

Terms and Conditions of Service Agreement

This Fee-For-Service program under SIN A-9 (equivalent to Contractor's Fee-For-Service" program for commercial customer) offered to ordering activities that place a task order, delivery order, or Blanket Purchase Agreement ("BPA") to cover endoscope repair services for a specified period of time.

Fee For Service Program Details:

- Established catalog prices for repair services
- Associated 15% discount off commercial list price
- Contractor to provide ordering activity with a quotation/proposal showing the estimated dollar amount necessary to cover repair costs for covered equipment (hereafter, the "Equipment") for a desired time period (twelve month period suggested)
- Ordering activity to provide task order, delivery order, or BPA to include at minimum (i) listing the model number and serial numbers of the Equipment, (ii) the coverage period, (iii) maximum value of repair work to be performed, cumulatively, for the coverage period, and (iv) authorized Government personnel for approving performance of repairs.
- Unless ordering activity specifies a pre-approved dollar threshold, a cost estimate for each repair will be provided to an authorized Government representative for approval prior to performing any repair work.
- Government will be invoiced for each repair performed during the coverage period. The invoice date shall be the date upon which the repaired scope is picked up at Contractor's service center by carrier for return shipment to the Government.
- Unless otherwise modified or terminated per terms and conditions of the Federal Supply Schedule (FSS) Contract and set forth below, the task order, delivery order, or BPA shall terminate at the earlier of (i) the stated coverage term of the task order, delivery order, or BPA, or (ii) the date upon which the maximum value of repair work stated on such order is reached. Task orders, delivery orders, or BPAs executed pursuant to this Contract Modification may not have a term that extends beyond the full term of Pentax's underlying FSS contract, including the period of any available options.

Fee-For-Service Terms and Conditions:

The repair service will be performed by Contractor at a PENTAX service center, however, at Contractor's option; minor repairs may be performed at the Government's site. Contractor will use commercially reasonable efforts to prioritize repairs hereunder.

Contractor will provide the Government with (i) a service request sheet which must be completed by the Government and (ii) pre-paid and pre-printed second-day P.M. freight forms to send the Equipment to Contractor for repair service. Contractor will return the repaired Equipment to the Government second-day P.M. freight, shipping pre-paid. Contractor will pay shipping costs. The Government assumes the risk of loss or damage to the Equipment while the Equipment is in transit from the Government to Contractor.

The Government may request that Pentax provide Government with a temporary loaner endoscope unit ("Loaner Unit") to be utilized at Government's site while the Equipment is being repaired by Pentax. Government must complete and sign a "Blanket Loaner Agreement for Service Contracts" in order to be eligible to receive a Loaner Unit from Pentax. Government shall keep the Loaner Unit segregated from the Equipment, and must return the Loaner Unit to Pentax within three (3) business days after Government's receipt of the repaired Equipment. Schedule A – Limited Warranty & Limitation of Liability controls in the event of a conflict between Schedule A and paragraph (8) of the Blanket Loaner Agreement.

V797P-4389A

Terms and Conditions of Service Agreement (Cont'd)

In compliance with OSHA blood borne pathogens regulations and other applicable federal, state and local regulations, Equipment, On-Site Back-Up Units, and Loaner Units that come into contact with potentially infectious material must be reprocessed and in adequate packaging materials before being sent to Contractor. The Government shall use the On-Site Back-Up Units and Loaner Units in the manner for which they were intended, on humans only, in accordance with all applicable manuals and instructions, and in compliance with all applicable laws and regulations. In addition, to ensure the protection of the Government and its patients, Contractor will reject partial repair requests. A "partial repair" is defined as a repair requested by a third party organization or clinical provider for only a specifically designated component(s) without instructions to bring the product back to original specifications of form, fit and function as established by Contractor standards and policy.

Payment terms are in accordance with the FSS Contract. The Prompt Payment Discount of 1% 20, Net 30 days from the date of each invoice is applicable. In addition to the repair service fees, the Government will pay all applicable taxes.

Either party may terminate this Fee-For-Service program upon 30 days' prior written notice to the other party. Upon termination or expiration of this Fee-For-Service program, the Government, at its own expense, shall immediately return the On-Site Back-Up Units and Loaner Units, if any, decontaminated, complete, and in good working order and condition (normal wear and tear excepted) to such place within the continental United States as is designated by Contractor, properly crated, freight prepaid and insured.

Contractor's enhanced repair service limited warranty and other terms and conditions are contained on Schedule A attached to this Fee-For-Service Program.

The terms and conditions of the FSS Contract apply to all task orders, delivery orders, or BPAs issued pursuant to this Fee-For-Service program. In the case of the BPA, when a lower price has been established, or when the delivery terms, FOB terms, or ordering requirements have been modified by the BPA, those modified term will apply to all purchases made pursuant to it and take precedence over the FSS Contract. Any unique term and conditions of the BPA that are not part of the FSS Contract will govern. In the event on an inconsistency between the terms and conditions of the BPA and the FSS Contract terms, other than those identified above, the terms of the FSS Contract will take precedence.

Repairs will be authorized by the ordering activity and funds obligated on a task order or delivery order. Performance (repairs) that begin prior to fund obligation shall be at the Contractor's risk.

This Agreement will be governed by, interpreted, and construed in accordance with Federal law.

V797P-4389A

SCHEDULE A

LIMITED WARRANTY & LIMITATION OF LIABILITY

Subject to the exclusions, limitations, and disclaimers set forth below, Contractor's sole warranty and representation to The Government is that all repair services shall be performed in a good and workmanlike manner and that the specific problem addressed by the service performed shall not recur for a period of 180 days from the date of such repair service. If the specific problem to be addressed by the service performed recurs during such warranty period, Contractor's sole liability and The Government's exclusive remedy shall be limited to the further repair of the Equipment, provided that Contractor's investigation and inspection disclose that (i) such problem re-developed under normal and proper use and (ii) the Equipment is otherwise covered under this limited warranty.

Excluded from this warranty and not warranted by Contractor in any fashion, either express, implied or by statutes, are:

- a) products, components, parts and materials not manufactured or distributed by Contractor and/or not bearing the "CONTRACTOR" brand label;
- b) supplies and consumables, including, without limitation, lamps and cables;
- c) thermal head printers;
- d) testing or certification of leakage current;
- e) any Equipment which has been disassembled, repaired, tampered with, altered, changed, or modified by persons other than Contractor's own authorized service personnel unless repair by others is made with written consent of Contractor;
- f) defects or damage to the Equipment resulting from misuse, abuse, negligence, impact or improper storage, non-performance of scheduled operator and maintenance items, or use of non-CONTRACTOR brand accessories, consumables, or supplies, or non-approved reprocessing methods;
- d) software programs and endo-therapy products; and
- e) Equipment which does not contain a validly placed and recorded Contractor serial number

EXCEPT FOR THE LIMITED WARRANTY SET FORTH ABOVE, CONTRACTOR MAKES NO AND DISCLAIMS ALL OTHER REPRESENTATIONS, GUARANTIES, CONDITIONS OR WARRANTIES OF ANY KIND WHATSOEVER, WHETHER EXPRESS OR IMPLIED OR ARISING UNDER ANY STATUTE, ORDINANCE, COMMERCIAL USAGE OR OTHERWISE, WITH RESPECT TO THE SERVICES PROVIDED HEREIN AND THE EQUIPMENT, COMPONENTS, SUPPLIES, PARTS AND MATERIALS PROVIDED IN CONNECTION WITH SUCH SERVICES, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OR REPRESENTATION AS TO THE FITNESS FOR A PARTICULAR PURPOSE OF THE EQUIPMENT AND ON-SITE BACK-UP UNITS, OR ARISING OUT OF OR IN CONNECTION WITH THEIR PERFORMANCE OF THE SERVICES HEREIN. IN NO EVENT AND UNDER NO CIRCUMSTANCES SHALL CONTRACTOR BE LIABLE TO THE GOVERNMENT OR ANY THIRD PARTY IN A BREACH OF WARRANTY ACTION FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL OR INCIDENTAL LOSSES OR DAMAGES, INCLUDING, WITHOUT LIMITATION, LOST PROFITS, LOSS OF USE, OR LIABILITIES TO OTHER PARTIES, HOWEVER CAUSED. THE GOVERNMENT ACKNOWLEDGES AND AGREES THAT CONTRACTOR'S LIABILITY AND THE GOVERNMENT'S EXCLUSIVE REMEDY IN A BREACH OF WARRANTY ACTION IS LIMITED TO THE PERFORMANCE OF THE SERVICES PROVIDED BY THIS AGREEMENT OR THE FAIR MARKET VALUE THEREOF.

V797P-4389A

SCHEDULE A (Cont'd)

LIMITED WARRANTY & LIMITATION OF LIABILITY

SOME STATES MAY NOT RECOGNIZE A DISCLAIMER OR LIMITATION OF WARRANTIES AND/OR LIMITATION OF LIABILITY SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO THE GOVERNMENT. THE GOVERNMENT MAY ALSO HAVE DIFFERENT AND/OR ADDITIONAL RIGHTS AND REMEDIES THAT VARY FROM STATE TO STATE. IF ANY IMPLIED WARRANTIES APPLY AS A MATTER OF LAW, THEY ARE LIMITED IN DURATION TO THE LENGTH OF THIS WARRANTY. CONTRACTOR DOES NOT WARRANT THE RESULTS OF ITS SERVICES WITH RESPECT TO SOFTWARE PREOGRAMS OR THAT THE EQUIPMENT WILL MEET THE GOVERNMENT'S REQUIREMENTS.

Representations and warranties made by any person, including but not limited to representatives of Contractor, which are inconsistent or in conflict with or in addition to the terms of this warranty, shall not be binding upon Contractor unless reduced to writing and approved by an expressly authorized officer of Contractor. Contractor will use only original equipment manufacturers' ("OEM") parts or parts that are guaranteed to meet OEM specifications and quality standards, including from time to time and where efficacious, reconditioned, refurbished, and/or serviceable used parts (provided that such used parts meet all OEM specifications and quality assurance standards). The use of reconditioned, refurbished, or serviceable used parts may include, without limitation, replacing or exchanging major components of the Equipment such as a control unit or light guide tube.
