## LIFTS and TRANSFERS PATIENTS WITHOUT MOVING the LIFT!

**700 lb  
Weight Capacity**

Millennium Medical Products, Inc.

**LIFTEM** is capable of lifting and transferring patients weighing up to 700 pounds without having to physically move the lift. Using Liftem virtually eliminates all incidences of caregiver injury, while ensuring safety to the patient.

### Preparing the Patient

Align the lift to the appropriate position around the bed and log roll the patient onto the sling.

### Easy Operation

Simply press the "UP" button located on the Remote and the patient is slowly lifted from the bed. Press the "Rotate" button and the patient is transferred.

### Safe and Sound

The corded handset allows the caregiver to be close to the patient during the lift and transfer from the bed. **YOU NEVER HAVE TO MOVE THE LIFT TO TRANSFER THE PATIENT.**

### Another Successful Transfer

Simply press the "DOWN" button and the patient is slowly lowered in the proper position into the wheelchair.

Patient falls are not a concern if you have... **LIFTEM**

**NEW**

### Stretcher Sling Attachment

The Stretcher sling attachment allows for transfers from the operating room table to a stretcher for patients who need to remain in the supine position.

Patient weighing made EASY.

Patients can be lifted up for a quick and easy linen change.
