Background Screening on Candidates:

Nightingale requires two professional references within the last two years, which must be supplied by a charge nurse, nursing supervisor, or manager. Our recruiters and Reference Verification Department are responsible for obtaining and verifying these references. Our Director of Nursing then randomly verifies the references.

- All candidates agree to criminal background checks as part of their application process. These checks may be provided to you upon request.
- All candidates are required to be screened for illegal drugs using a ten-panel screen.
- Nightingale verifies that each candidate referred is not excluded from participation in Medicare and/or Medicaid programs via the OIG/Medicare fraud search procedure.

We mandate that our candidates undergo extensive credentialing procedures that include multi-faceted reference collection and verification procedures, comprehensive background check policies, negative results from a drug screen and confirmation of physical health assessment and testing. We are contracted with a myriad of companies to whom we outsource our testing and background check needs with respect to all traveling employees. Some of these companies include American Databank, Concentra, and Quest Diagnostics. We also reference the various online screening resources for tiered background checks on local, state, and national levels. As we are a JCAHO-certified agency, all reference checking, background checking, drug screening and health assessing measures taken are designed to meet or exceed the highest standards set within the industry.
