Size of Business: Small

CUSTOMER INFORMATION:

1. Table of awarded special item number(s): 605-2b

Models and Catalog Number

OCS80 OC Auto Micro 80

2. Maximum order: None
3. Minimum order: \$50.00
4. Geographic coverage (delivery area): 50 States, D.C. and Puerto Rico
5. Point(s) of production: Cortlandt Manor, NY
6. Prices shown herein are net, discount deducted.
7. Quantity discounts: None
8. Prompt payment terms: Net 30 Days from receipt of invoice.
9. Government commercial credit card: Accepted up to and over the micro-purchase threshold, with no additional discount.
10. Foreign items (list items by country of origin): All items in Price List are of Japan origin.
11. Time of delivery: Within 10 days, ARO for Reagents and Supplies, 21 days ARO for Equipment.
12. F.O.B. point(s): Destination 48 States, Washington D.C. to consignees premises free of charge and to ports of exportation for AK, HI, and P.R. Ordering facility to pay for shipping from port of exportation to the facility.
13. Ordering address(es): 510 Furnace Dock Road,
Cortlandt Manor, NY 10567

14. Payment address(es): P.O. Box 95816
Chicago, IL 60694-5816
15. Warranty provision: Service is included for the life of the CPT/CPRR contract
16. Export packing charges: No additional charge
17. Terms and conditions of rental, maintenance and repair:
(1-800-431-2123) Emergency repair service within 24 hours of time of notification of the malfunction Monday – Friday, 8:00 am – 5:00 pm. Initial contact is telephone diagnosis and repair (no charge). Emergency repair service between 5:00 pm – 8:00 am and weekends/holidays will be billed at a flat rate of \$900.00. This rate for service includes parts. For VA facilities that choose 24/7 service, the flat rate of \$900.00 does not apply.
18. Installation: Installation and on-site operator training included.
19. Terms and conditions of repair parts: Included
20. Service Points: Polymedco Inc., 1-800- 431-2123
21. List of service and distribution points (if applicable): N/A
22. List of participating dealers (if applicable): None
23. Preventive maintenance (if applicable): OC Auto Micro 80 models are provided with one preventive maintenance visit per year.
24. Amendments: Upon mutual agreement between Polymedco and the V.A.
25. Data Universal Number System (DUNS) number: 02-479-8555
26. Notification regarding registration in Central Contractor Registration (CCR) database. Polymedco is registered in CCR. The NAICS code is 334516.

COST PER SAMPLE – NET PRICE

CPT & CPRR PRICING

	<u>CPT</u>	<u>CPRR</u>
Standard Price*	\$7.00	\$8.50
With 24/7 Service	\$7.25	\$8.75

*(includes Service at 8:00 a.m. – 5:00 p.m. normal business hours)
 Emergency Service Option 2: Emergency Service between 5:00 p.m.-8:00 a.m. and weekends/holidays will be billed at \$900.00 flat rate per service call.

Note: CPT includes one (1) collection bottle, CPRR includes up to three (3) collection bottles.

TABLE 1 The following items are included in CPT and CPRR

Catalog No.	Product
OC80	FOBT Latex Reagent (200 Tests)
OC80C	FOBT Calibrator
OCQN	FOBT Negative Control
OCQP	FOBT Positive Control
OC80W	Wash Solution
OC80B	Buffer
OC80CUV	Cuvettes 1x 100
TT-88	Calibrator Cups
OCS2	20 X 50 Sample Bottles

TABLE 2 The following items are excluded from CPT and CPRR.

Catalog No.	Product	
FBTP2	20X50 Collection Paper	\$90.00
FOBT-ENVE-BULK	Mailing Envelope Pack X 500	\$140.00
51242-BULK	Outer Envelope X 500	\$40.00
51401-BULK	Educational Brochure x 500	\$40.00
OCPU	Personal Packs 20 per box	\$33.00
OCPU-VA3	Personal Packs 20/box with 3 sample bottles	\$70.00
TP-5	Thermal Paper	\$20.00

CPT/CPRR Billing Procedure
Polymedco/Ordering Facility

Ordering Facility Designation

Each ordering facility must declare their choice of Cost per Test (CPT) or Cost per Reportable Result (CPRR) mechanism for billing procedure prior to equipment installation. CPT basis means that a ordering facility will collect and assay one (1) patient sample and report one patient result for billing. CRRR basis means that a ordering facility may collect and assay up to three (3) patient samples and report one (1) patient result for billing.

Cost-Per-Test Basis

“Cost-Per-Test” (CPT) means the pricing arrangement intended to allow the ordering (Customer) to generate a single patient test result for a given test. The CPT pricing includes the cost of Reagents, related Products (e.g. latex reagent, calibration, controls, one (1) collection device and consumables), but excludes, personal use packs (personal use pack components).

Cost-Per-Reportable Basis

“Cost-Per-Reportable Result” (CPRR) means the pricing arrangement intended to allow the ordering (Customer) to generate a single patient test result for a given test at a cost that is a comprehensive estimate of the Customer’s true cost, and reflects the Customer’s actual cost of running laboratory diagnostic tests. The CRRR pricing includes the cost of Reagents, related Products (e.g. latex reagent, calibration, controls, up to three (3) collection devices and consumables), but excludes, personal use packs (personal use pack components).

“**Monthly Payment**” means an amount billed to the Customer monthly for actual Cost Per Test or Cost Per Reportable Result (as described above) performed during the preceding month of the CPT/CPRR Term, as reflected in the Customer’s Monthly Usage Report, generated from the Customer’s LIS System or Customer’s other reporting system. This report must be provided to Polymedco (Supplier) no later the ten (10) business days from the end of the preceding month and must include the number of tests used for calibration, numbers of tests used for controls (QC data), patient results (positive and negative) indicating the total number of tests used to produce the patient results reported. Supplier will charge each CPT or CRRR to the Customer at the corresponding price per CPT or CRRR set forth in the agreement.

Monthly Shipping Orders. Under the CPT/CPRR Program, a Customer will establish a standing order for Test Materials. Supplier will contact the Customer to determine the quantity of Test Materials required by the Customer, and Supplier will use commercially reasonable efforts to ship Monthly Stocking Orders to the Customer within ten (10) ARO following receipt of the Customer’s requirements for Test Materials. Supplier will designate the method of shipment of the Test Materials in the Monthly Stocking Order.

Quarterly Reconciliation. At the end of each quarter, the parties will reconcile the number of CPT/CPRR vs. the amount of the Product supplied, to determine the percent variance of the amount of product provided by the Supplier from the number of patient tests invoiced. If the number of patient tests invoiced plus the remaining inventory of Product is greater than a 2% variance of the product provided at no charge, the Supplier will invoice the Customer for the number of tests difference. See the example below:

- A. Supplier provided 10 test kits per month (200 tests per kit) = 2,000 tests x 3 months = 6,000 tests/quarter.
- B. Customer’s LIS report indicates total usage for the quarter of 5,000 tests for the quarter.
- C. Customer has 2.5 kits (or 500 tests) remaining in inventory.
- D. There is a discrepancy of 2.5 kits or 500 tests. 2% of 6,000 tests provided are 120 tests, presumably used for calibration and QC (controls). 380 tests are unaccounted for and must be billed back to the Customer.
